INSIDE GLOWSTONE

Who We Are

The Power of Glowstone Quartz

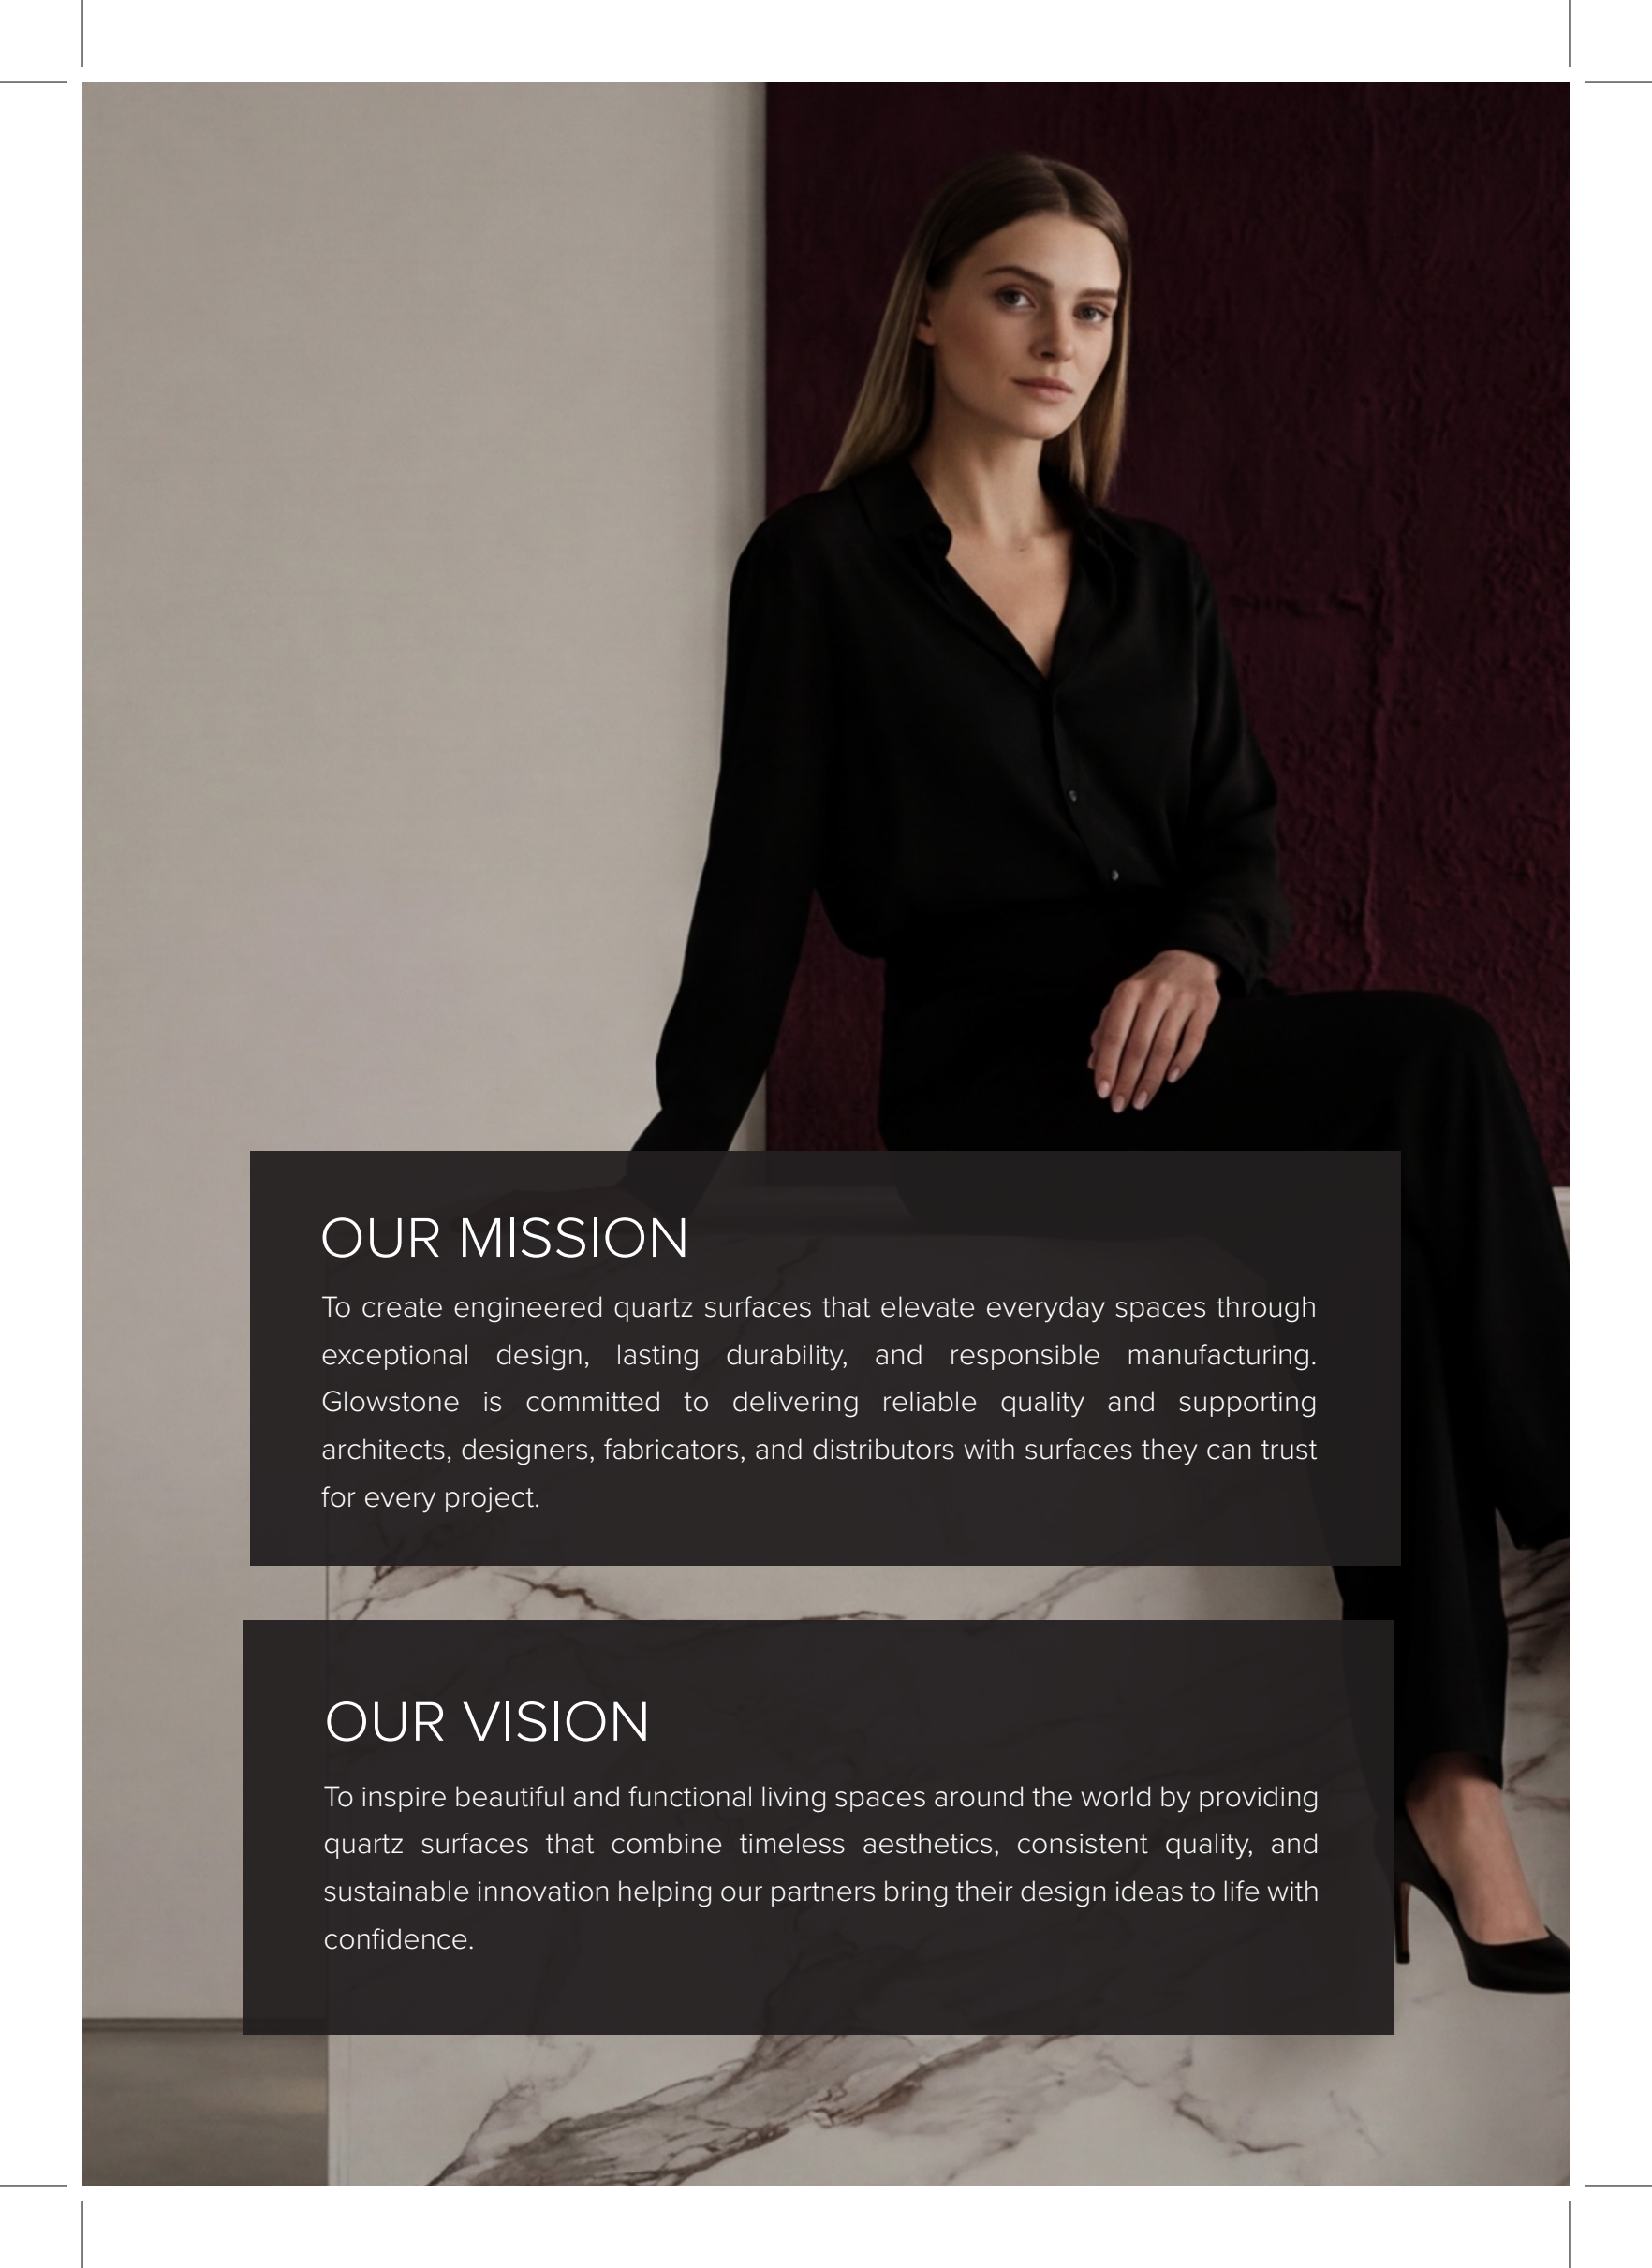

Innovation Meets Sustainability

Designs that Dazzle

TRANSFORMING SPACES WITH THE ARTISTRY OF QUARTZ

Where every design
tells a story of Elegance
and Aesthetics

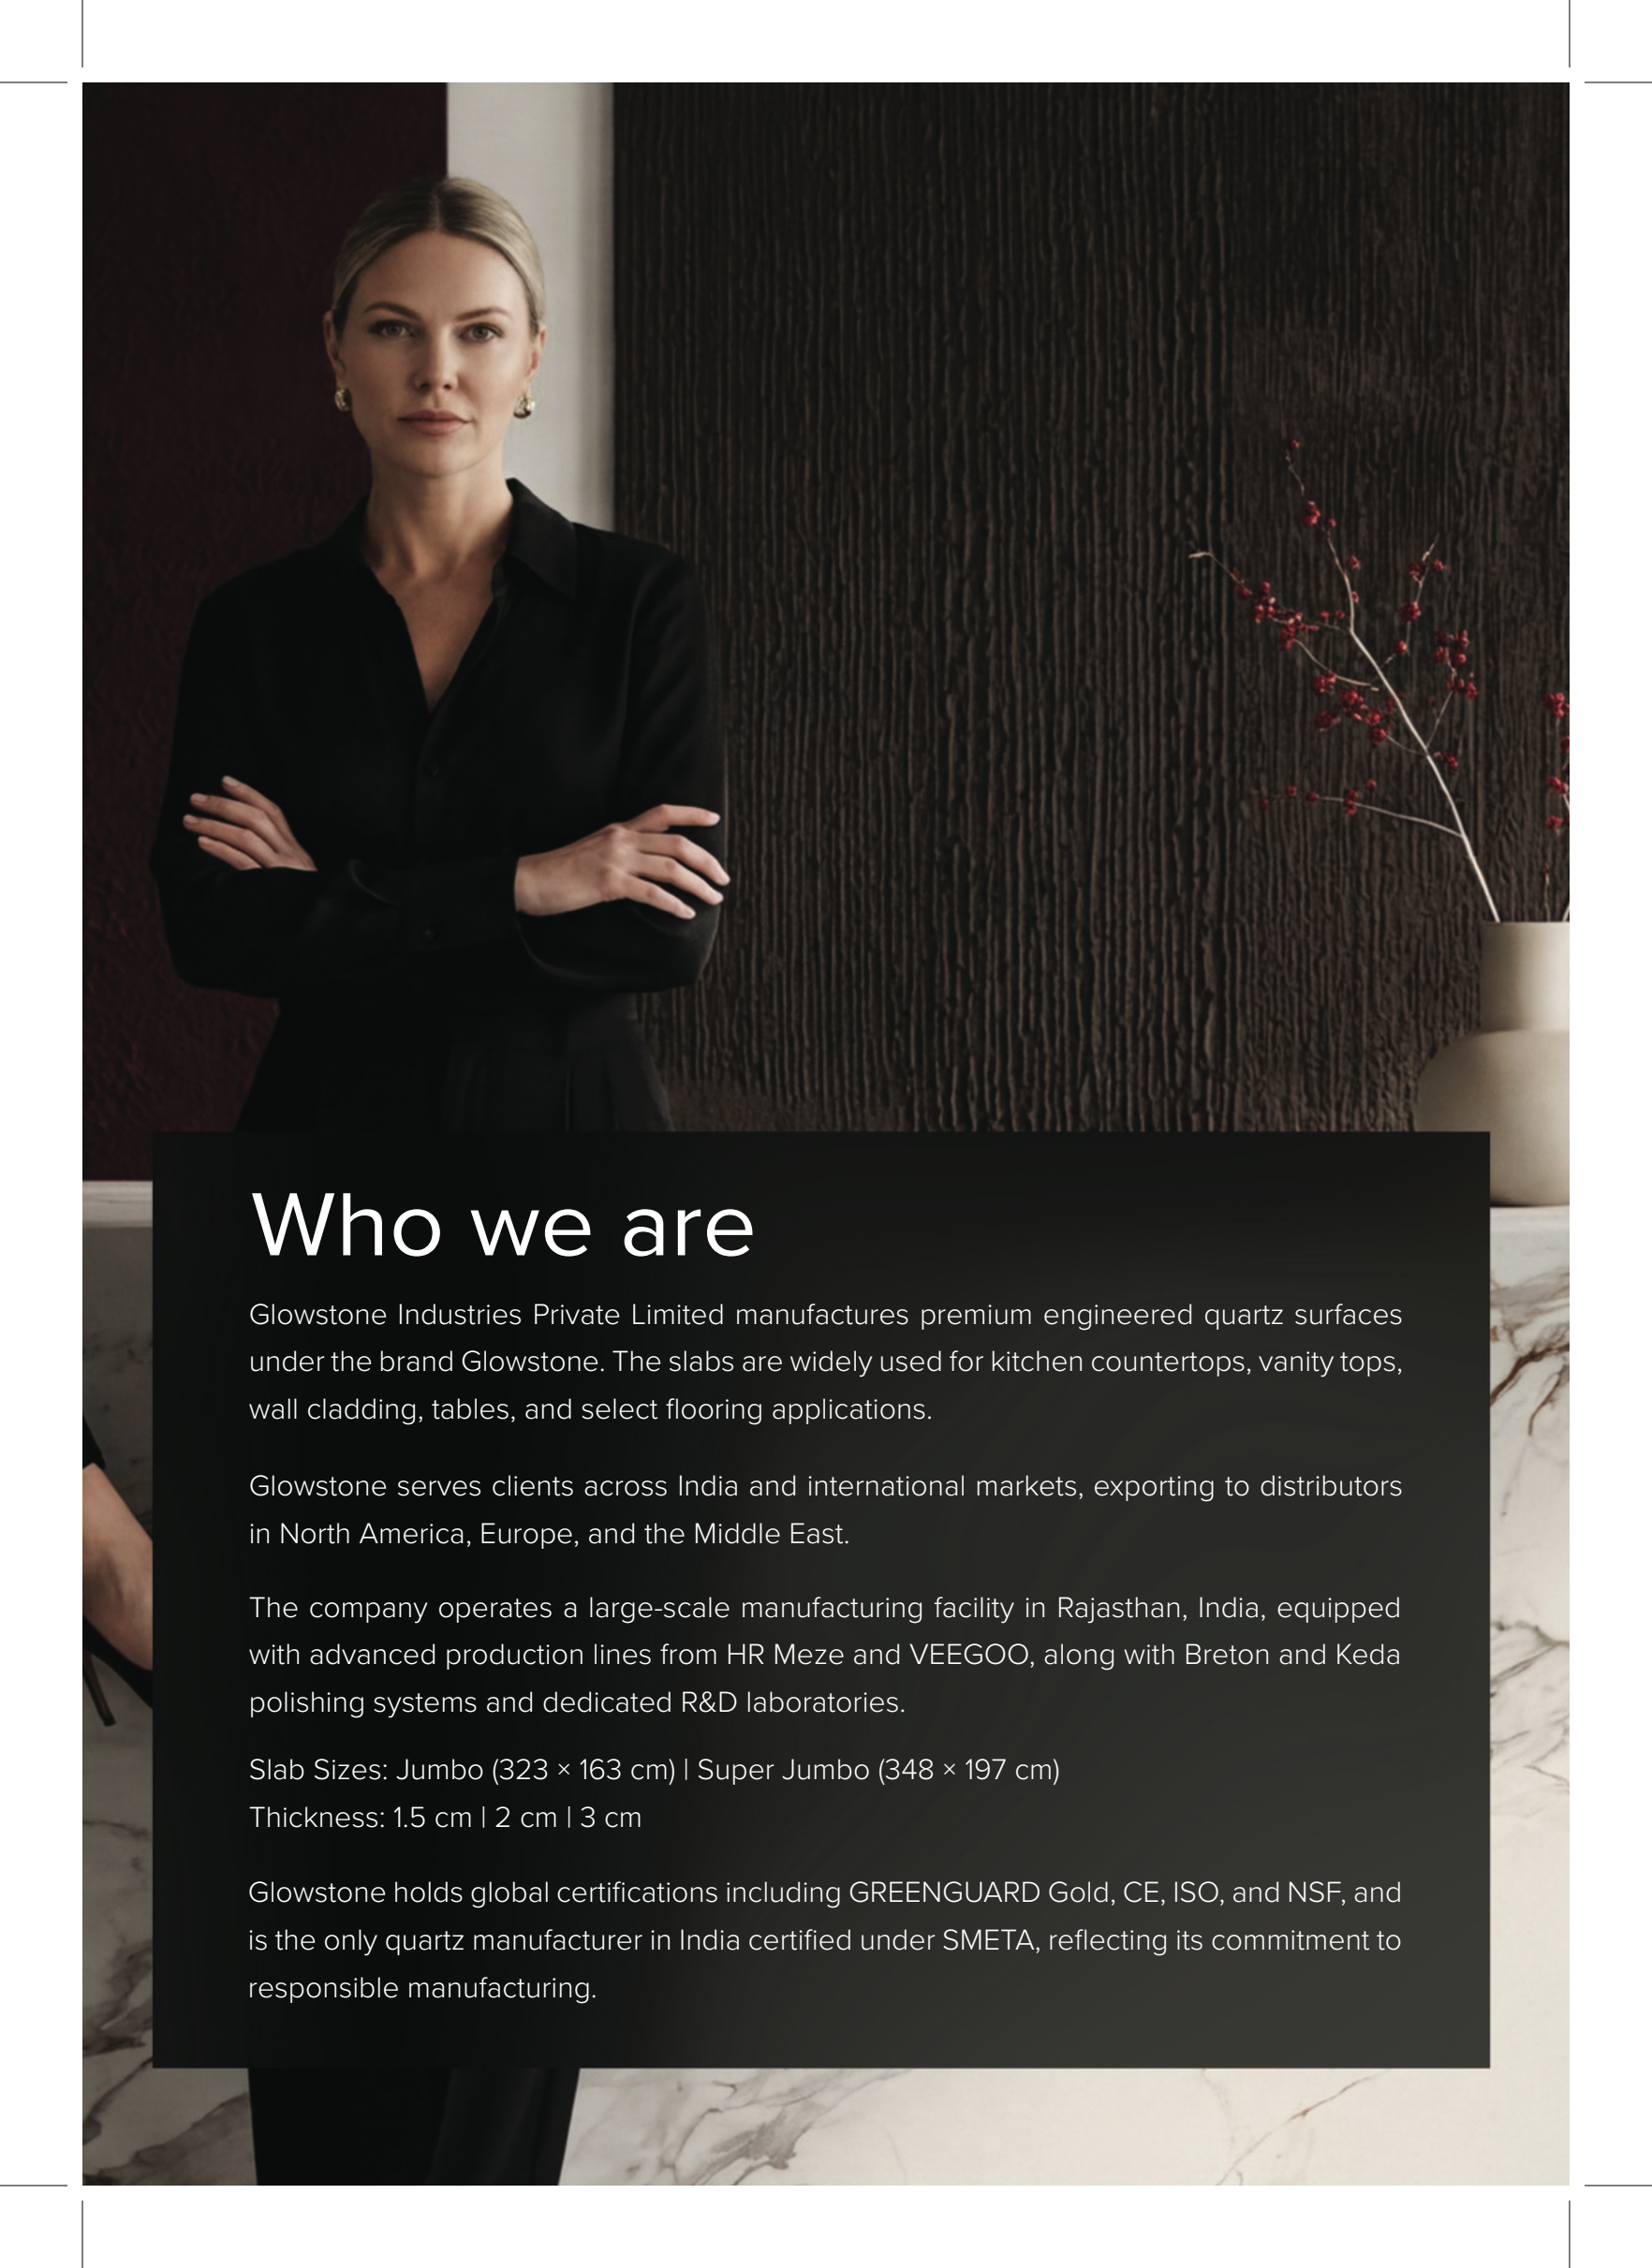

A woman with long brown hair, wearing a black long-sleeved dress, is sitting and looking towards the camera. She is positioned in front of a dark red, textured wall. The floor is made of light-colored marble with dark veins. The lighting is soft, highlighting her features and the texture of the wall and floor.

OUR MISSION

To create engineered quartz surfaces that elevate everyday spaces through exceptional design, lasting durability, and responsible manufacturing. Glowstone is committed to delivering reliable quality and supporting architects, designers, fabricators, and distributors with surfaces they can trust for every project.

OUR VISION

To inspire beautiful and functional living spaces around the world by providing quartz surfaces that combine timeless aesthetics, consistent quality, and sustainable innovation helping our partners bring their design ideas to life with confidence.

Who we are

Glowstone Industries Private Limited manufactures premium engineered quartz surfaces under the brand Glowstone. The slabs are widely used for kitchen countertops, vanity tops, wall cladding, tables, and select flooring applications.

Glowstone serves clients across India and international markets, exporting to distributors in North America, Europe, and the Middle East.

The company operates a large-scale manufacturing facility in Rajasthan, India, equipped with advanced production lines from HR Meze and VEEGOO, along with Breton and Keda polishing systems and dedicated R&D laboratories.

Slab Sizes: Jumbo (323 × 163 cm) | Super Jumbo (348 × 197 cm)

Thickness: 1.5 cm | 2 cm | 3 cm

Glowstone holds global certifications including GREENGUARD Gold, CE, ISO, and NSF, and is the only quartz manufacturer in India certified under SMETA, reflecting its commitment to responsible manufacturing.

Why us

Glowstone quartz surfaces bring together the beauty of natural stone and the performance of modern innovation. Designed for both style and durability, each surface features a sleek, contemporary finish that resists scratches, stains, and everyday wear—making them as practical as they are stunning.

With a non-porous, easy-to-clean design, Glowstone ensures low maintenance without compromising on elegance. The refined colors and textures deliver a seamless look that enhances any space with timeless sophistication.

Whether featured in kitchens, bathrooms, or statement walls, Glowstone quartz surfaces add a touch of luxury and lasting brilliance to every environment.

Calacatta Series

S-602

S-602 features an ivory-white multicolored base enriched with flowing veins of gold, grey, white, and warm brown tones. The layered movement across the surface creates a rich, natural stone-inspired appearance with striking visual depth. Ideal for kitchen countertops, islands, bathrooms, and elegant interiors, S-602 brings warmth, character, and timeless sophistication to any space.

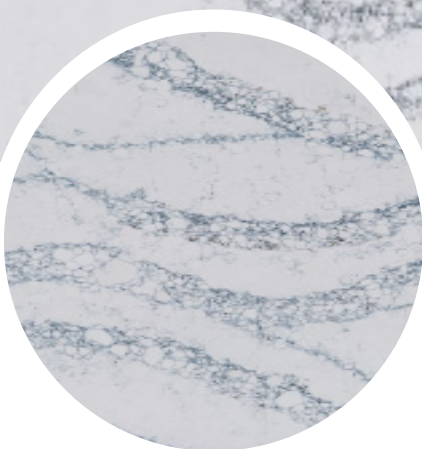

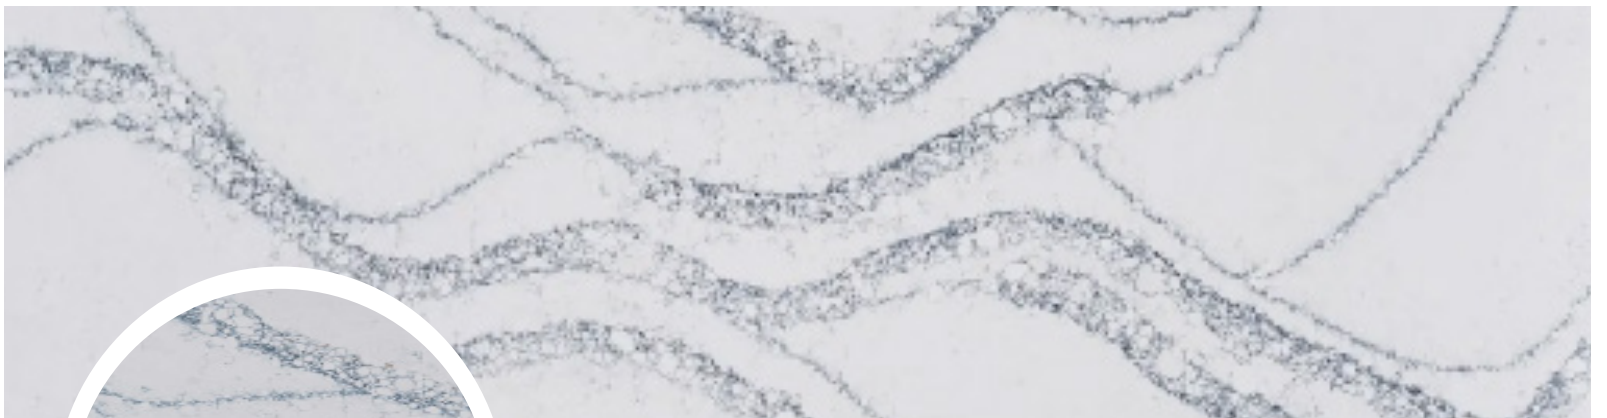

Calacatta Series

Desert Sand

Desert Sand captures the warmth of a sunlit landscape with its warm white and grey multicolored base accented by flowing golden veins and delicate shimmering highlights. The gentle movement across the surface creates depth while maintaining a soft, elegant character. Ideal for kitchen countertops, islands, bathrooms, and contemporary interiors, Desert Sand introduces warmth and subtle luxury into any space.

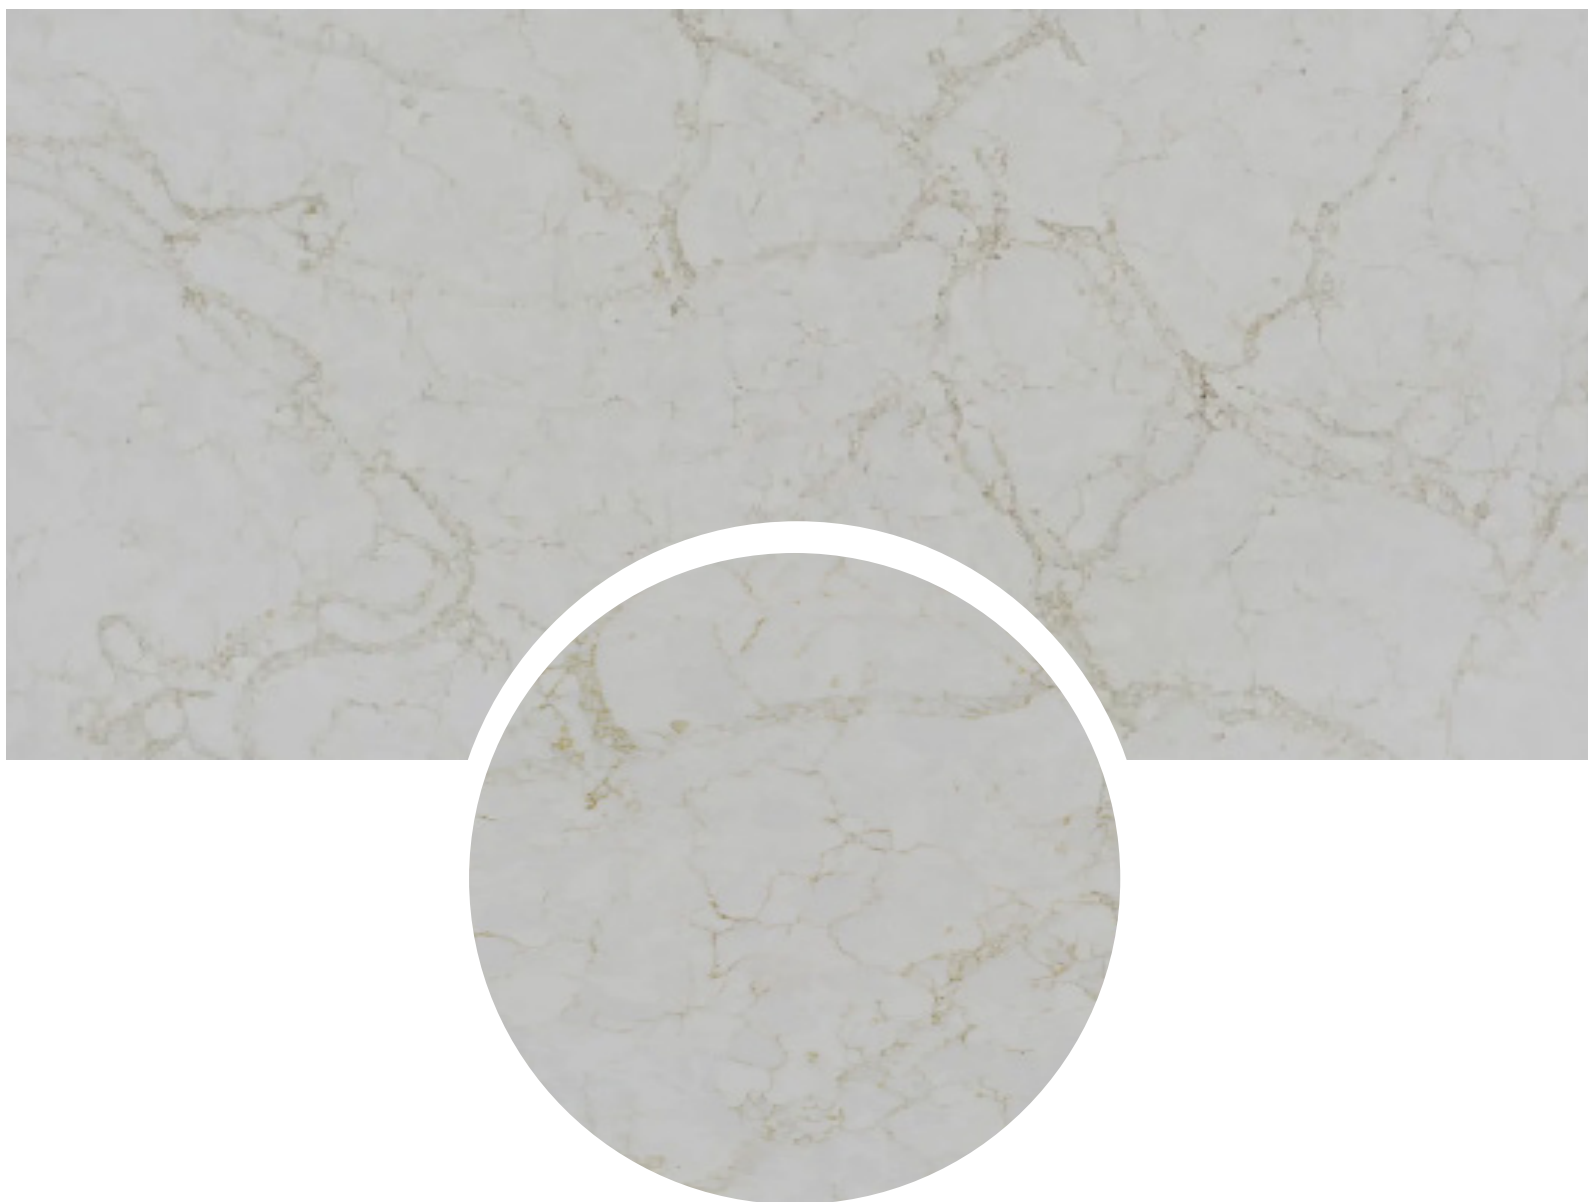

Calacatta Series

S-708

S-708 showcases a white and grey multicolored base enriched with flowing dark blue veins accented by delicate golden speckles. The bold yet graceful veining creates a striking contrast against the soft background, adding depth and visual movement to the surface. Perfect for kitchen countertops, islands, bathrooms, and modern interiors, S-708 introduces a distinctive statement while maintaining a refined and balanced aesthetic.

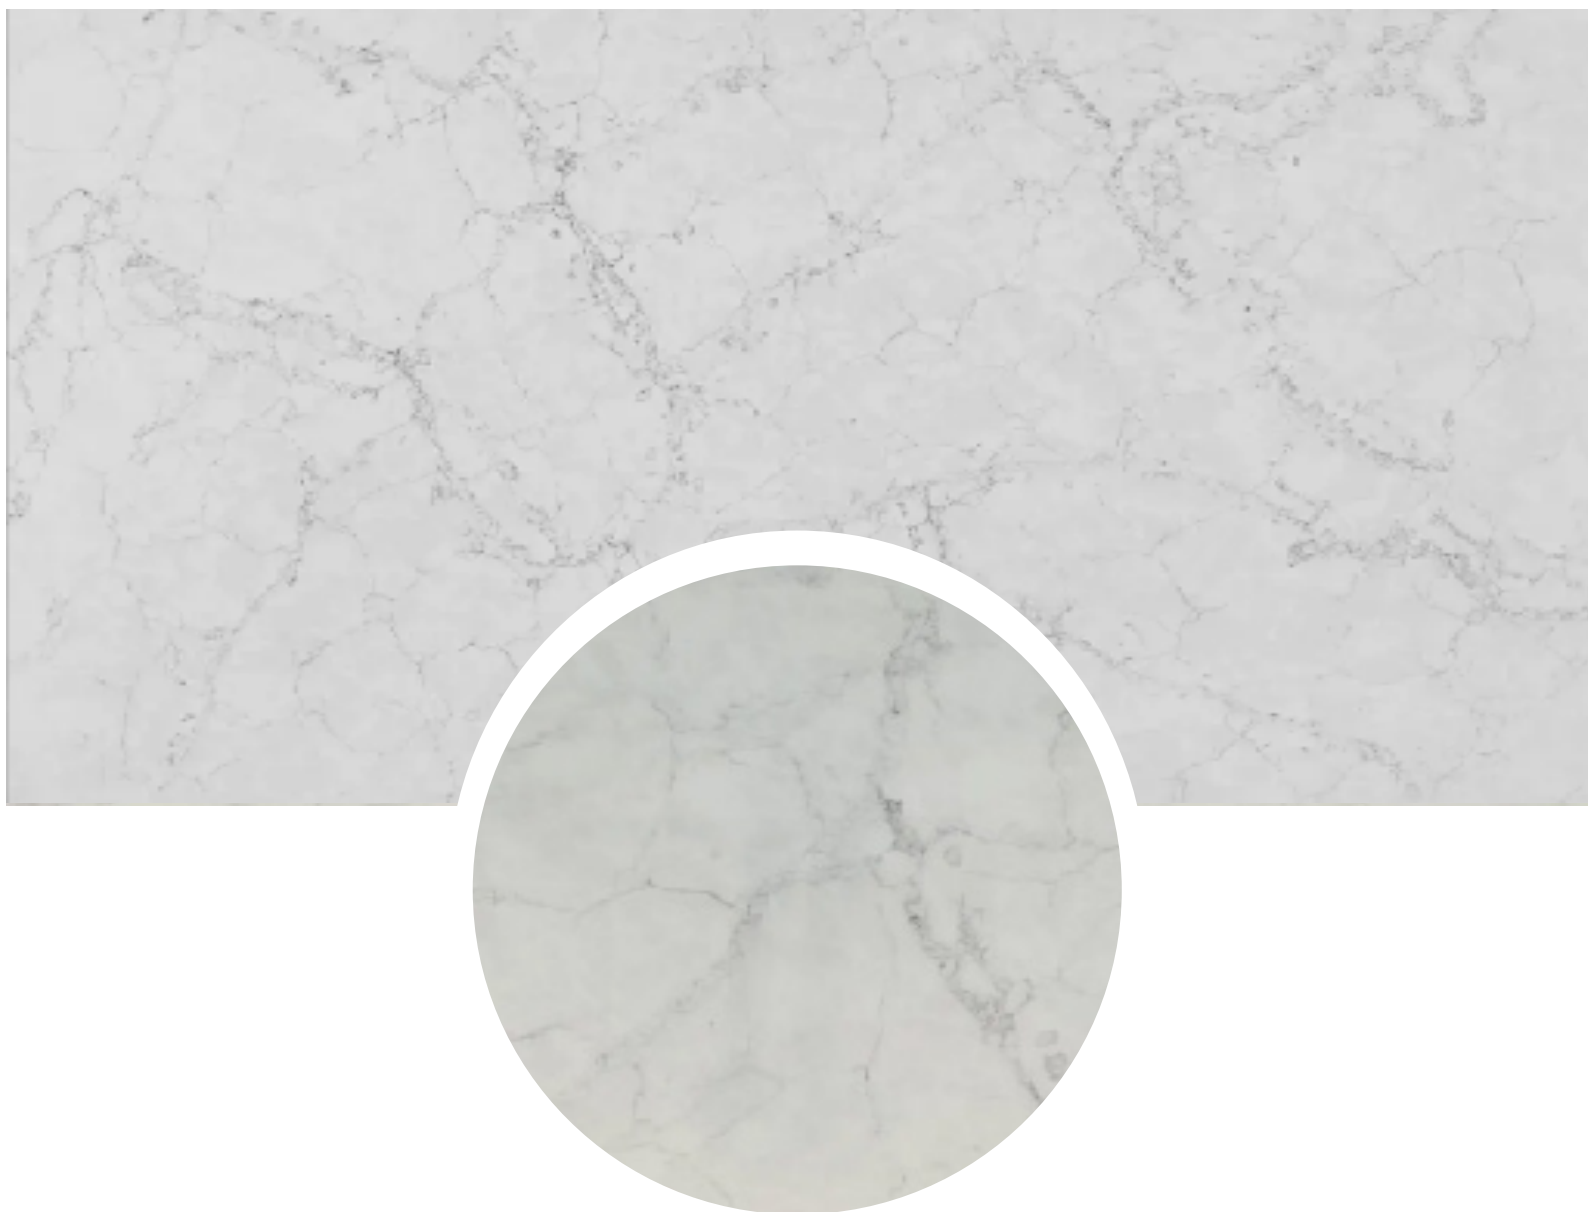

Calacatta Series

Thunder Gold

Thunder Gold presents a warm white and grey base highlighted by bold, Statuario-style gold veins that flow naturally across the surface. The thick veining creates a striking contrast while preserving the organic elegance of natural stone. Ideal for kitchen countertops, islands, bathrooms, and statement interior applications, Thunder Gold delivers a luxurious marble-inspired look with strong visual character.

Calacatta Series

Thunder Grey

Thunder Grey carries a warm white and grey base accentuated by bold Statuario-style grey veins that move naturally across the surface. The pronounced veining creates depth and contrast while maintaining the refined character of classic marble. Suitable for kitchen countertops, islands, bathrooms, and sophisticated interior spaces, Thunder Grey offers a timeless design with a strong yet elegant presence.

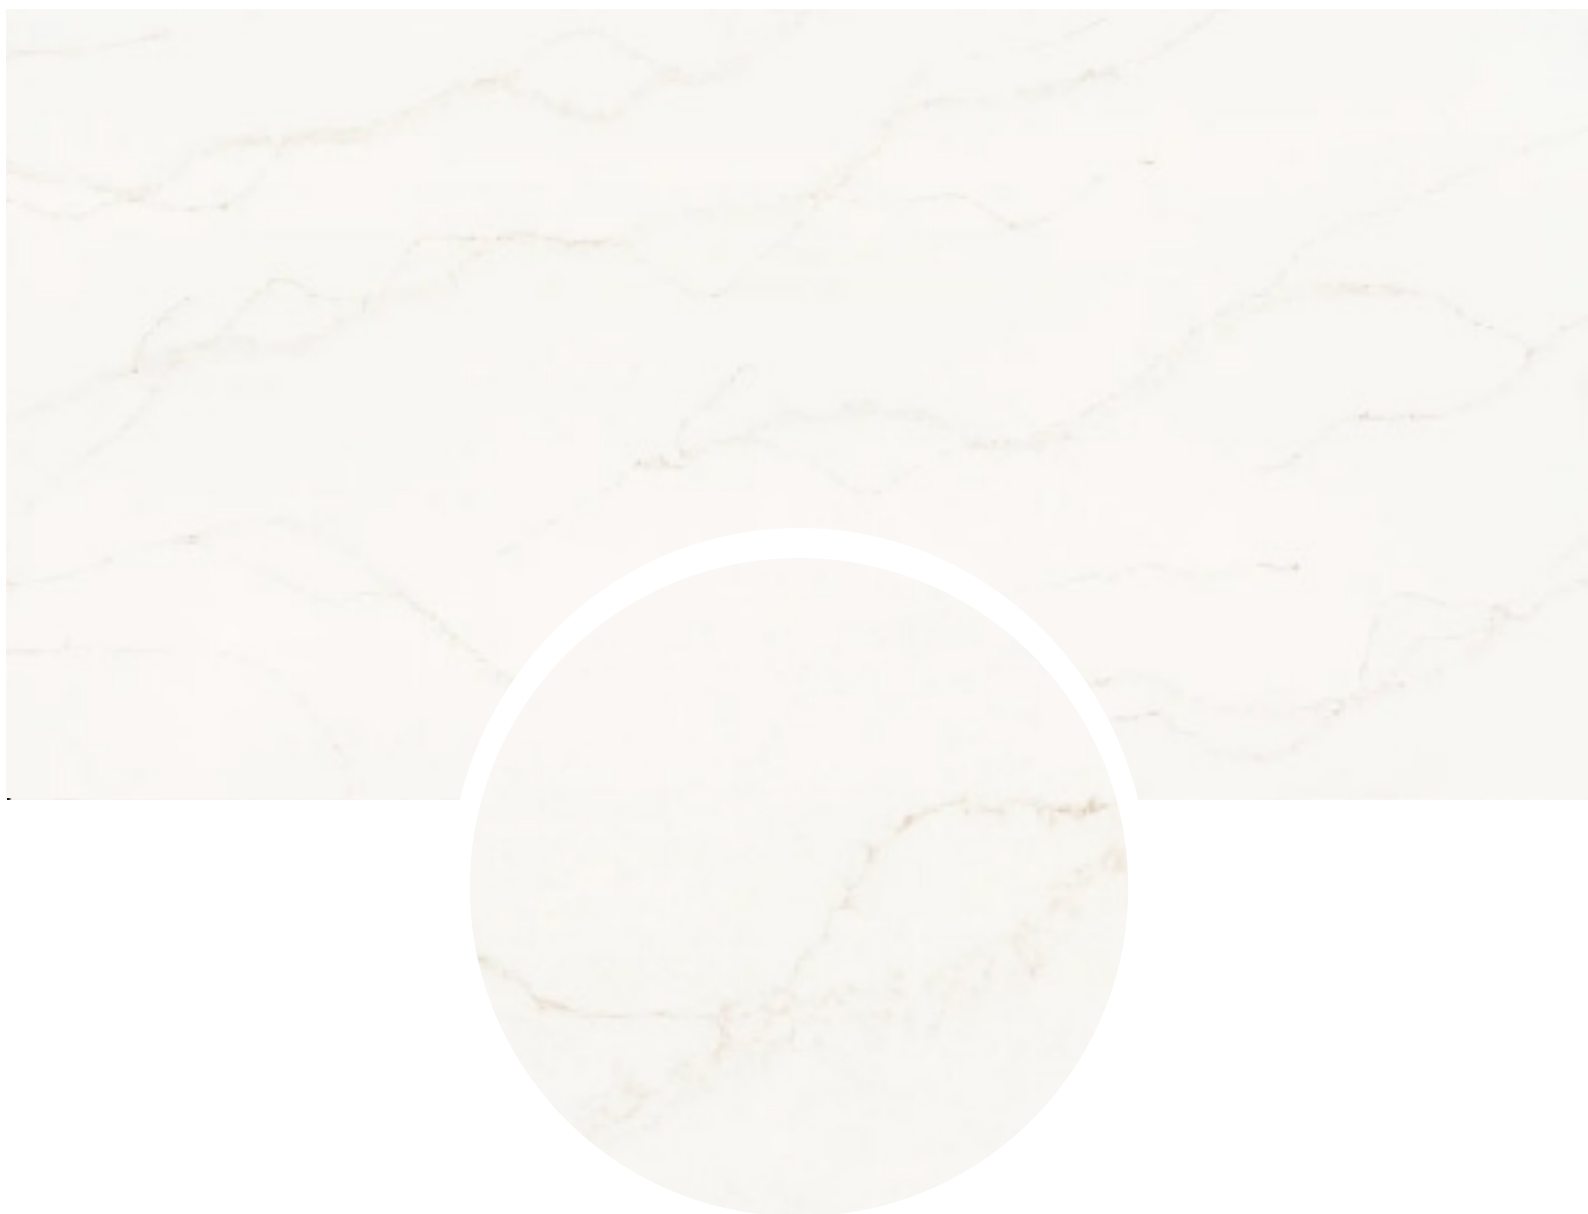

Calacatta Series

Everest Gold

Everest Gold displays a bright white base animated by fluid, liquid-like veins of brownish gold and soft grey flowing gracefully across the surface. The natural movement of the veining creates a sense of depth and elegance reminiscent of premium marble. Well suited for kitchen countertops, islands, bathrooms, and upscale interior settings, Everest Gold brings a dramatic yet refined visual impact to design spaces.

Calacatta Series

Amarillo

Amarillo presents a clean white base gently traced with faint gold veins that move softly across the surface. The subtle veining adds warmth and refinement while preserving a light, minimalist appearance. Suitable for kitchen countertops, islands, bathrooms, and modern interiors, Amarillo offers a bright and elegant look that complements both classic and contemporary designs.

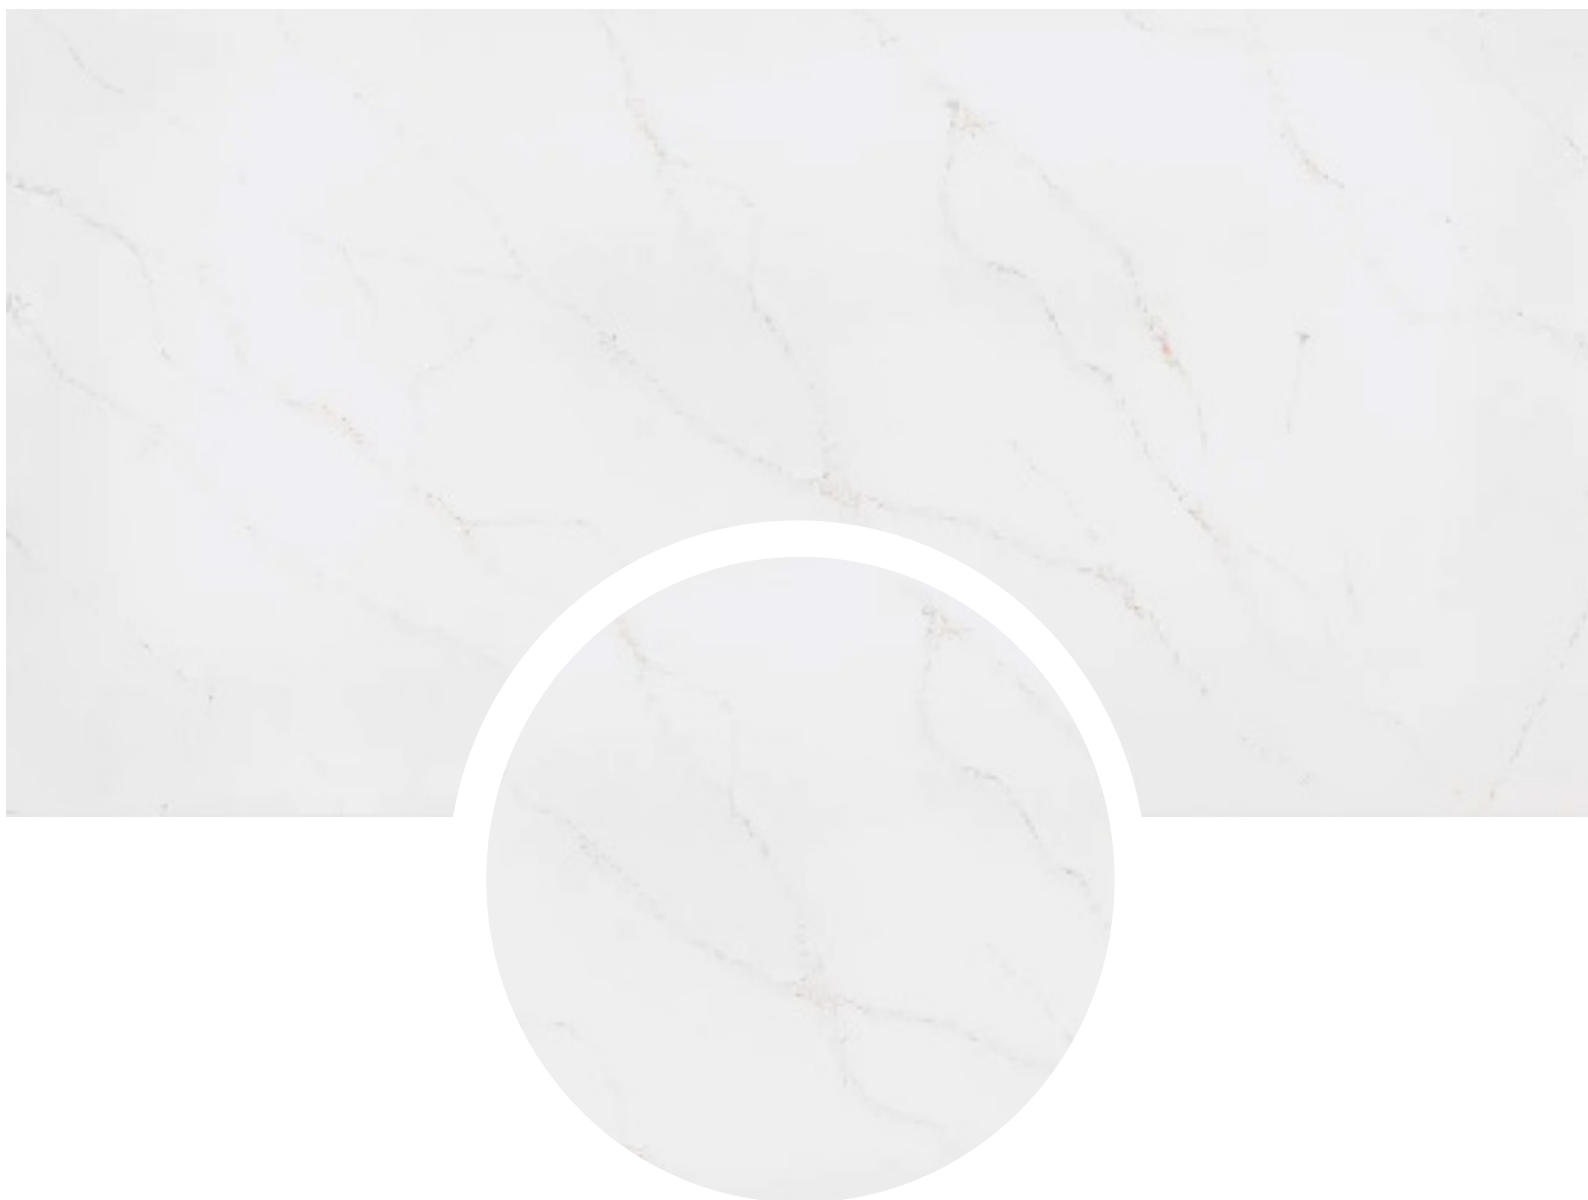

Calacatta Series

Celestial

Celestial features a bright white base enriched with a blend of bold and delicate gold and grey veins flowing across the surface. Subtle Carrara-style gold and grey speckles scattered across the background add depth and texture, enhancing its natural stone-inspired character. Ideal for kitchen countertops, islands, bathrooms, and refined interior spaces, Celestial creates a luminous and sophisticated visual statement.

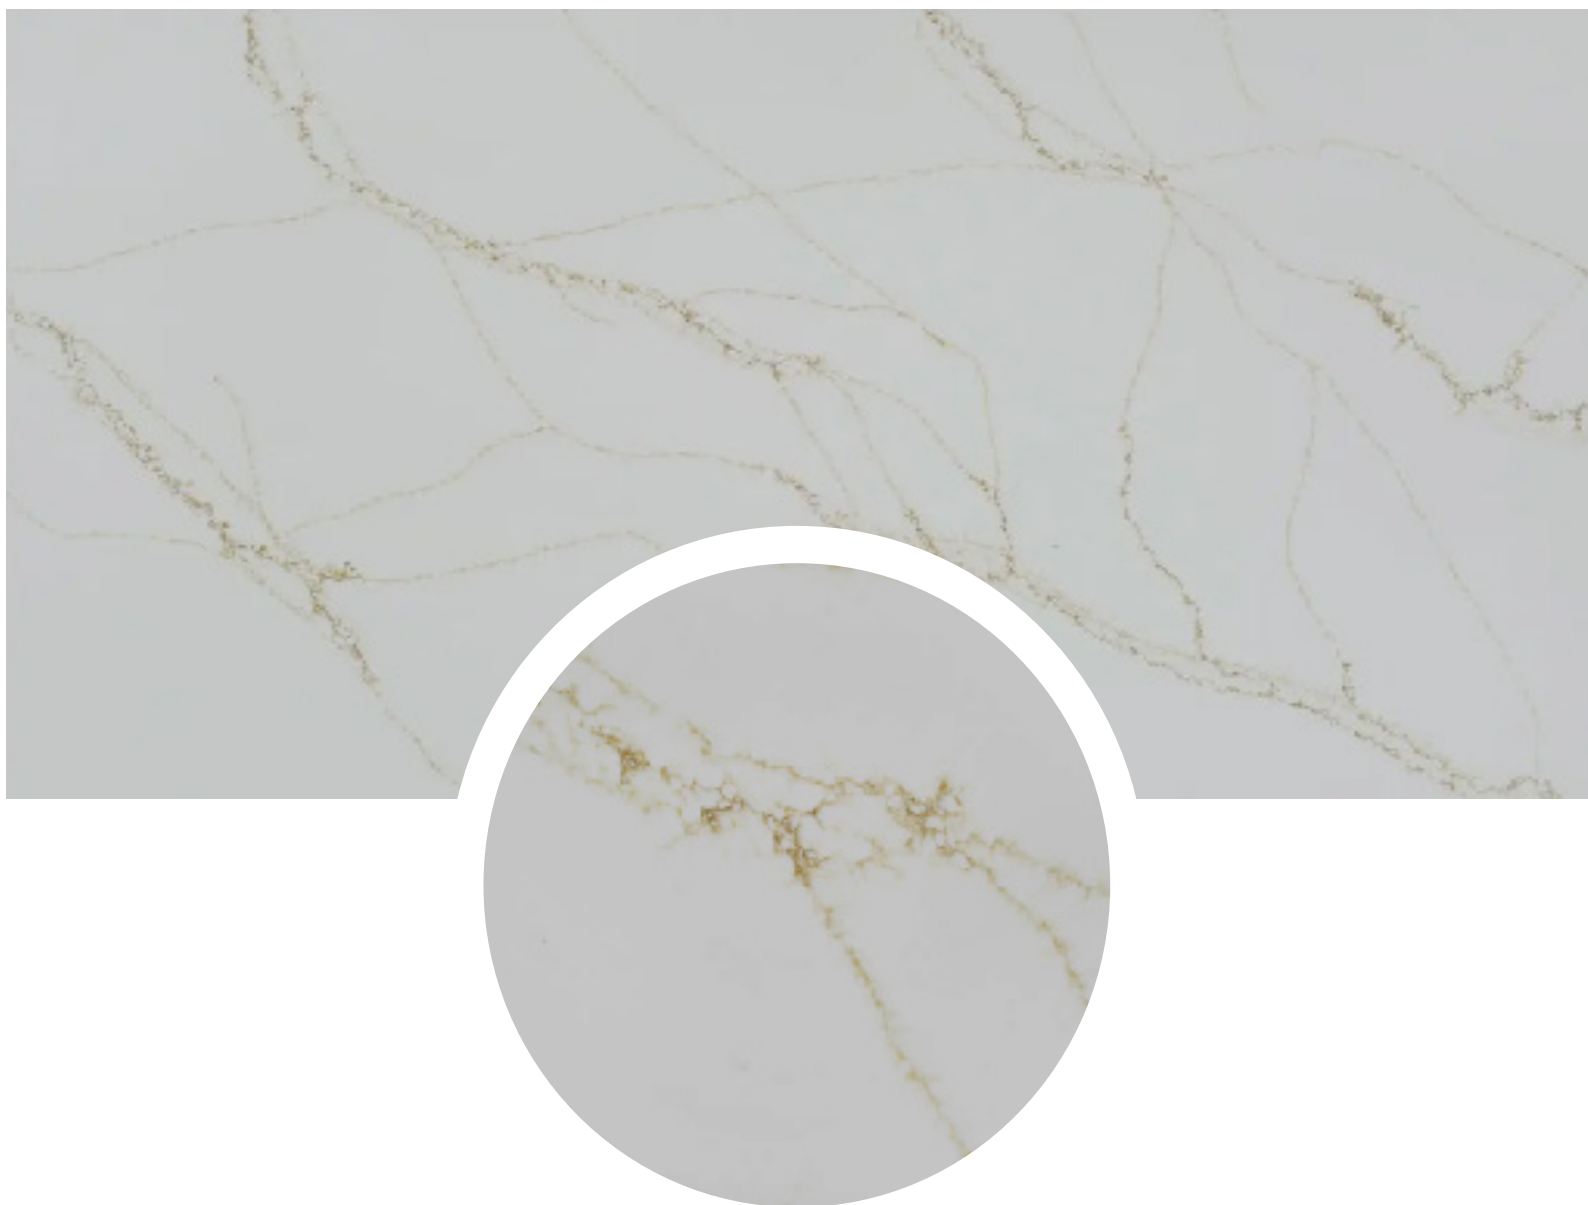

Calacatta Series

Phoenix Gold

Phoenix Gold presents a crisp white base accented with soft, faint veins of gold and grey that flow gently across the surface. The delicate veining adds subtle movement while maintaining a clean and refined aesthetic. Well suited for kitchen countertops, islands, bathrooms, and modern interiors, Phoenix Gold delivers a light, elegant look with a touch of warm sophistication.

Calacatta Series

Harmony Gold

Harmony Gold reveals an exceptionally bright white base illuminated by fine, radiant gold veins that trace delicate lines across the surface. The slender veining creates a sense of balance and quiet luxury while preserving a clean, luminous appearance. Ideal for kitchen countertops, islands, bathrooms, and elegant interior settings, Harmony Gold offers a graceful blend of purity and warmth

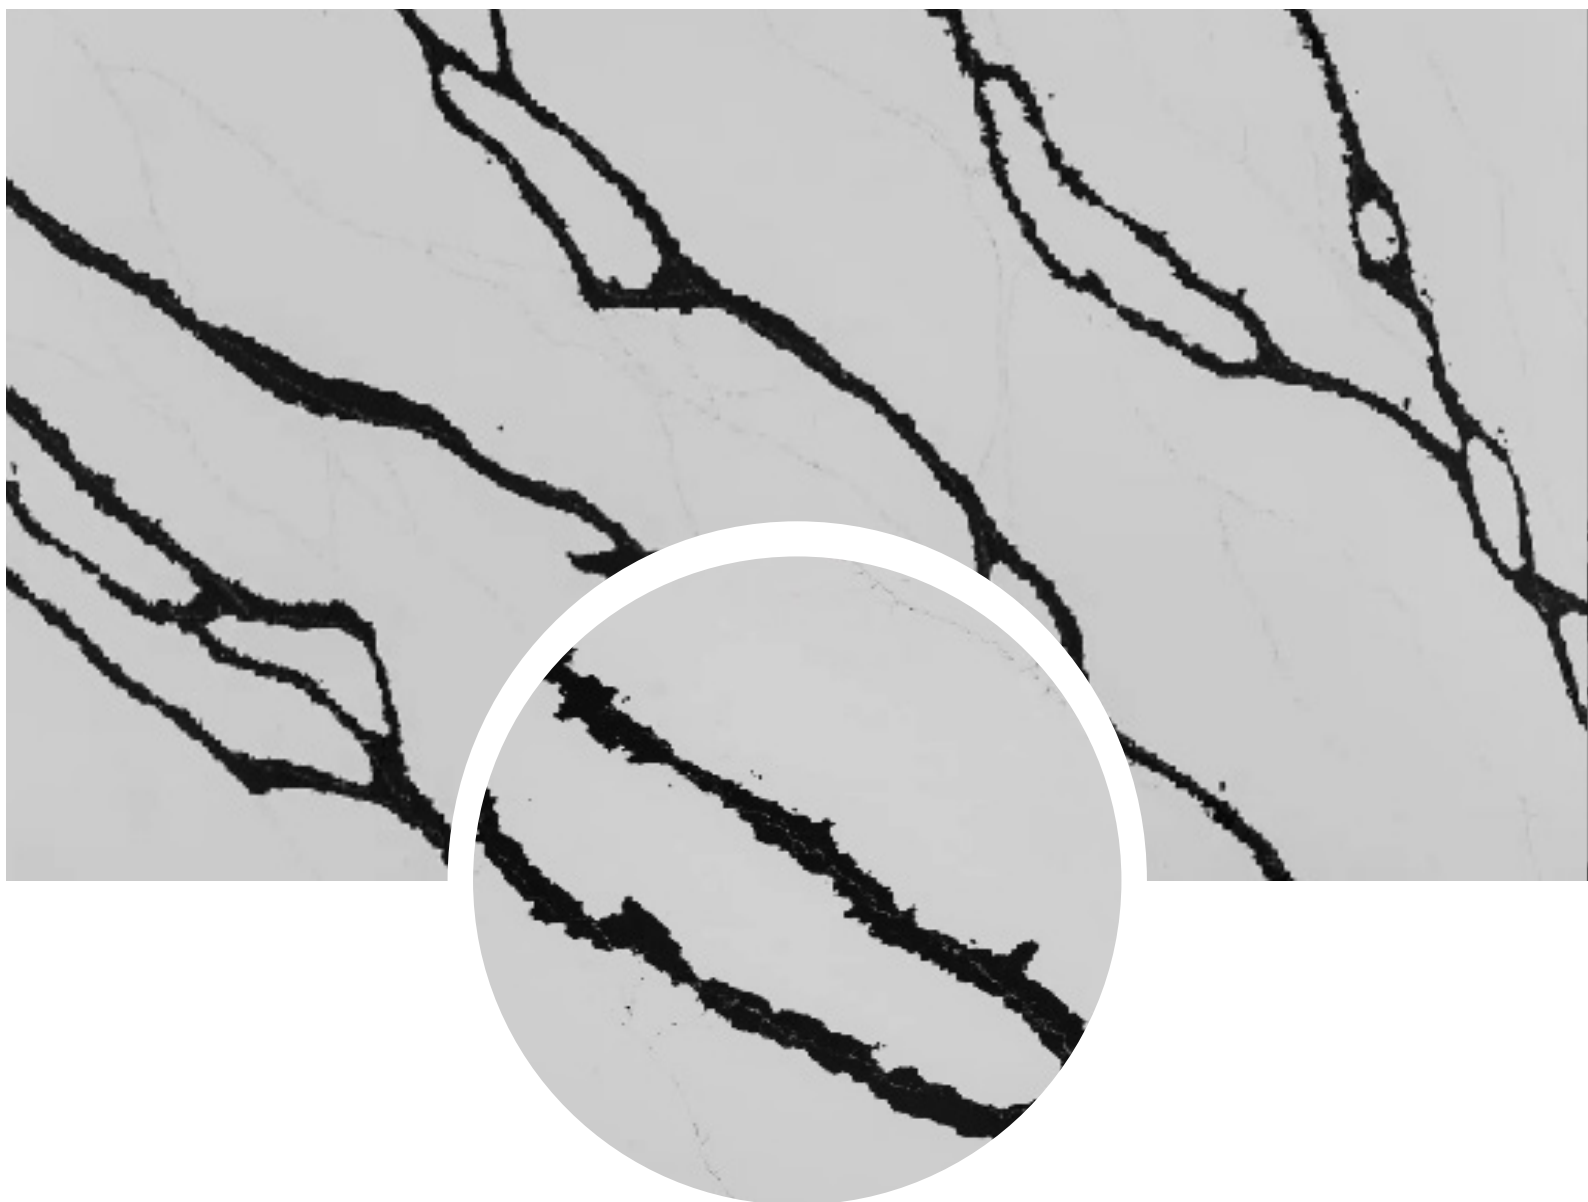

Calacatta Series

Chicago

Chicago presents a strikingly bright white base animated by fluid grey veins that flow smoothly across the surface. The gentle movement of the veining creates a natural sense of depth while maintaining a clean, contemporary aesthetic. Ideal for kitchen countertops, islands, bathrooms, and modern interiors, Chicago delivers a crisp marble-inspired design with refined visual balance.

Calacatta Series

S-721

S-721 pairs a crisp white base with bold, dramatic black veins that sweep powerfully across the surface. Fine grey veins weave through both the black veining and the background, adding layers of movement and subtle detail. Ideal for kitchen countertops, islands, bathrooms, and modern interiors, S-721 creates a striking monochrome aesthetic with strong visual contrast.

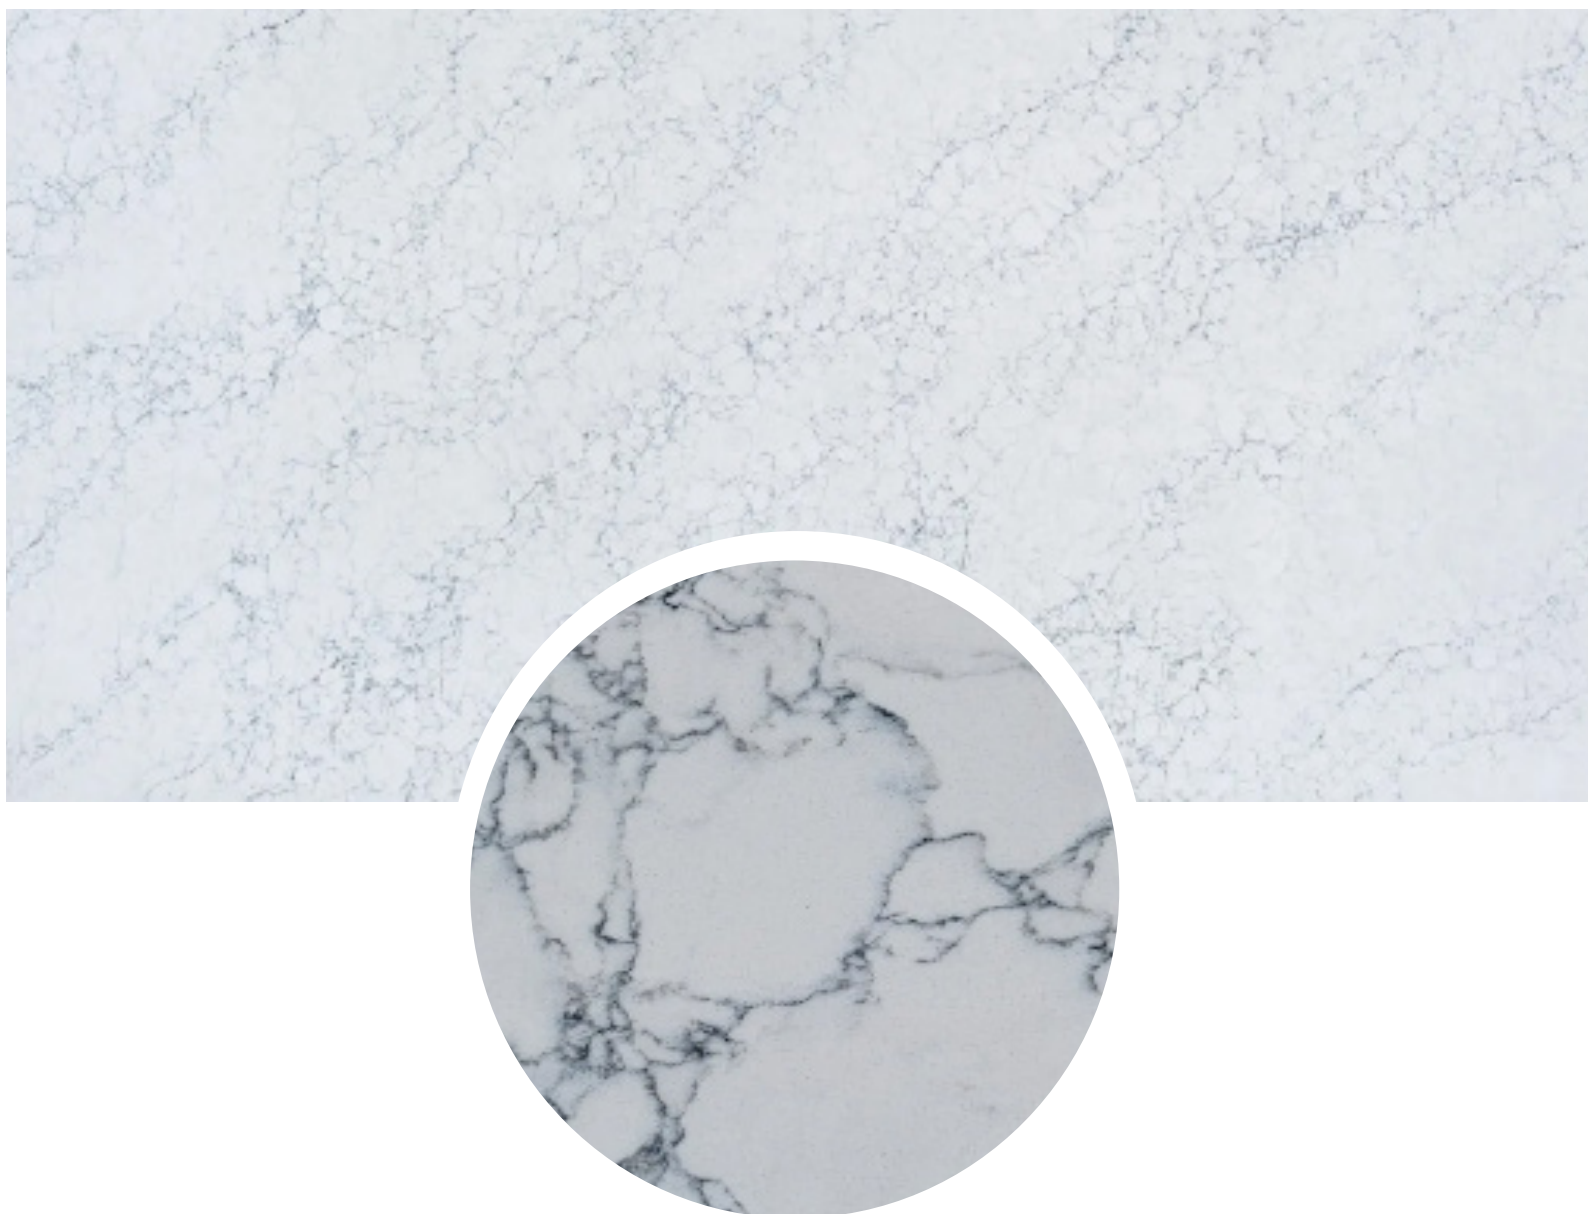

Calacatta Series

S-490

S-490 brings together a soft blend of white, grey, and beige tones across the base, gently accented by subtle brown veins that move naturally through the surface. The harmonious mix of warm and neutral shades creates a balanced, earthy aesthetic reminiscent of natural stone. Well suited for kitchen countertops, islands, bathrooms, and inviting interior spaces, S-490 offers a warm and versatile design that complements a wide range of styles.

Calacatta Series

Cascade

Cascade combines a white and grey multicolored base with an intricate network of grey veins forming a dynamic, busy pattern across the surface. The layered movement of the veining creates depth and visual texture, closely resembling the complexity of natural marble. Ideal for kitchen countertops, islands, bathrooms, and statement interiors, Cascade offers a bold yet sophisticated design that draws attention without overwhelming the space.

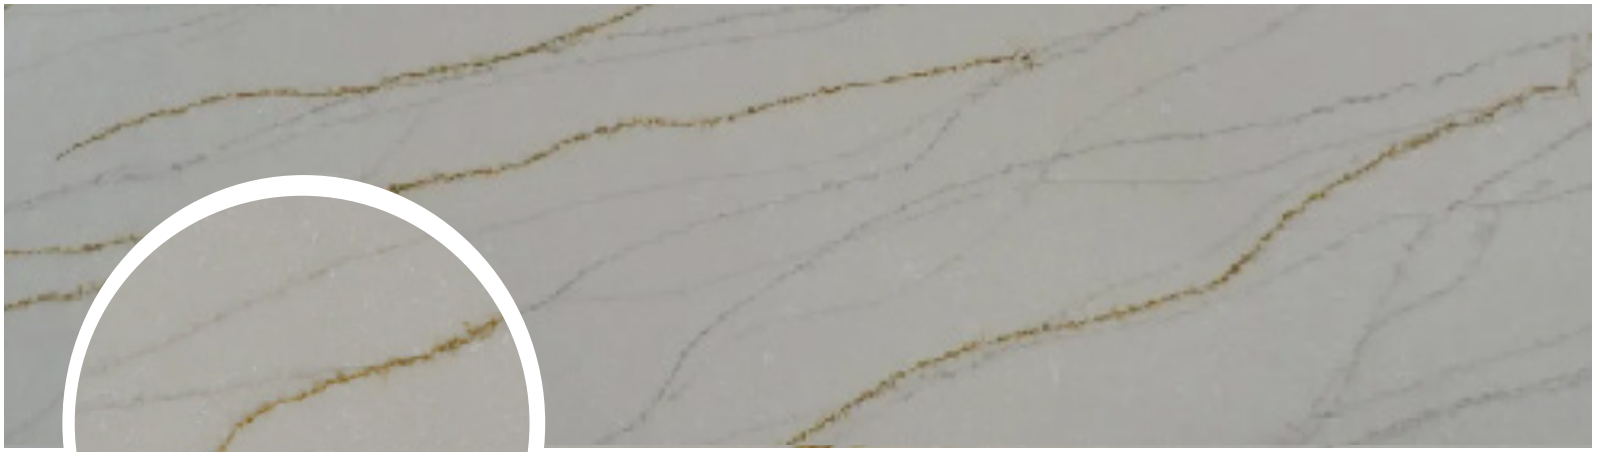

Calacatta Series

Nova

Nova features a bright white base highlighted by a bold warm white-beige vein flowing across the surface. The vein is subtly outlined with soft grey accents, while a delicate thread of gold runs through it, adding a refined touch of contrast. Ideal for kitchen countertops, islands, bathrooms, and upscale interiors, Nova blends gentle warmth with striking veining to create a sophisticated focal surface.

Calacatta Series

C-657

C-657 showcases a soft off-white base enriched with subtle white Carrara movement across the surface. Layers of grey, deep grey, and gold veins flow naturally through the slab, creating a rich and dramatic composition. The design can be fully backlit, where the veins appear dark and defined as they block the light, producing a striking illuminated effect ideal for feature walls, countertops, and statement interiors.

Calacatta Series

C-651

C-651 features an off-white and grey multicolored background intersected by bold brown veins that flow strongly across the surface. The thick veining adds dramatic contrast and natural movement, giving the slab a powerful visual character. When backlit, the veins glow with an intense lava-like effect, creating a striking illuminated appearance suited for feature walls, countertops, and statement interior designs..

Icon Series

C-705

C-705 presents a refined white and grey base enriched with graceful flowing veins of gold and soft brown. The layered movement of the veining creates a natural sense of depth and elegance, giving the surface a sophisticated marble-like character. Suitable for kitchen countertops, islands, bathrooms, and upscale interiors, C-705 offers a harmonious blend of warmth and contemporary luxury.

Icon Series

C-705

C-705 displays a bright white base animated by an intricate network of flowing golden veins that move gracefully across the surface. The richer, more dynamic veining pattern adds depth and visual texture while maintaining a refined and elegant character. Ideal for kitchen countertops, islands, bathrooms, and statement interiors, C-705 delivers a luxurious marble-inspired aesthetic with striking golden movement.

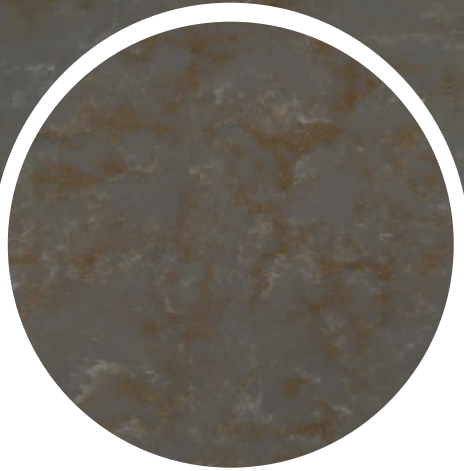

Icon Series

C-728

C-728 features a soft off-white base accented by flowing brown veins that move naturally across the surface. The warm veining creates gentle contrast and organic movement, giving the slab a refined natural stone appearance. Well suited for kitchen countertops, islands, bathrooms, and inviting interior spaces, C-728 introduces warmth and depth while maintaining a calm, elegant character.

Icon Series

S-662

S-662 features a soft grey to light brown base layered with scattered white and gold Carrara-style movement, enriched with delicate shimmering accents across the surface. The subtle variation creates depth while maintaining a refined, natural stone appearance. When backlit, the slab reveals a dramatic transformation the Carrara pattern appears dark while the entire surface glows with a warm yellowish illumination, making it ideal for feature walls, countertops, and statement interior installations.

Icon Series

Crystal Jade

Crystal Jade showcases a rich blue-green base layered with white and gold Carrara-style movement enhanced by delicate shimmering accents. The interplay of color and texture creates a vibrant surface with natural depth and character. When backlit, the slab transforms dramatically the background glows with a luminous green tone while the Carrara pattern appears deep green, making it especially striking for illuminated walls, feature panels, and statement interiors.

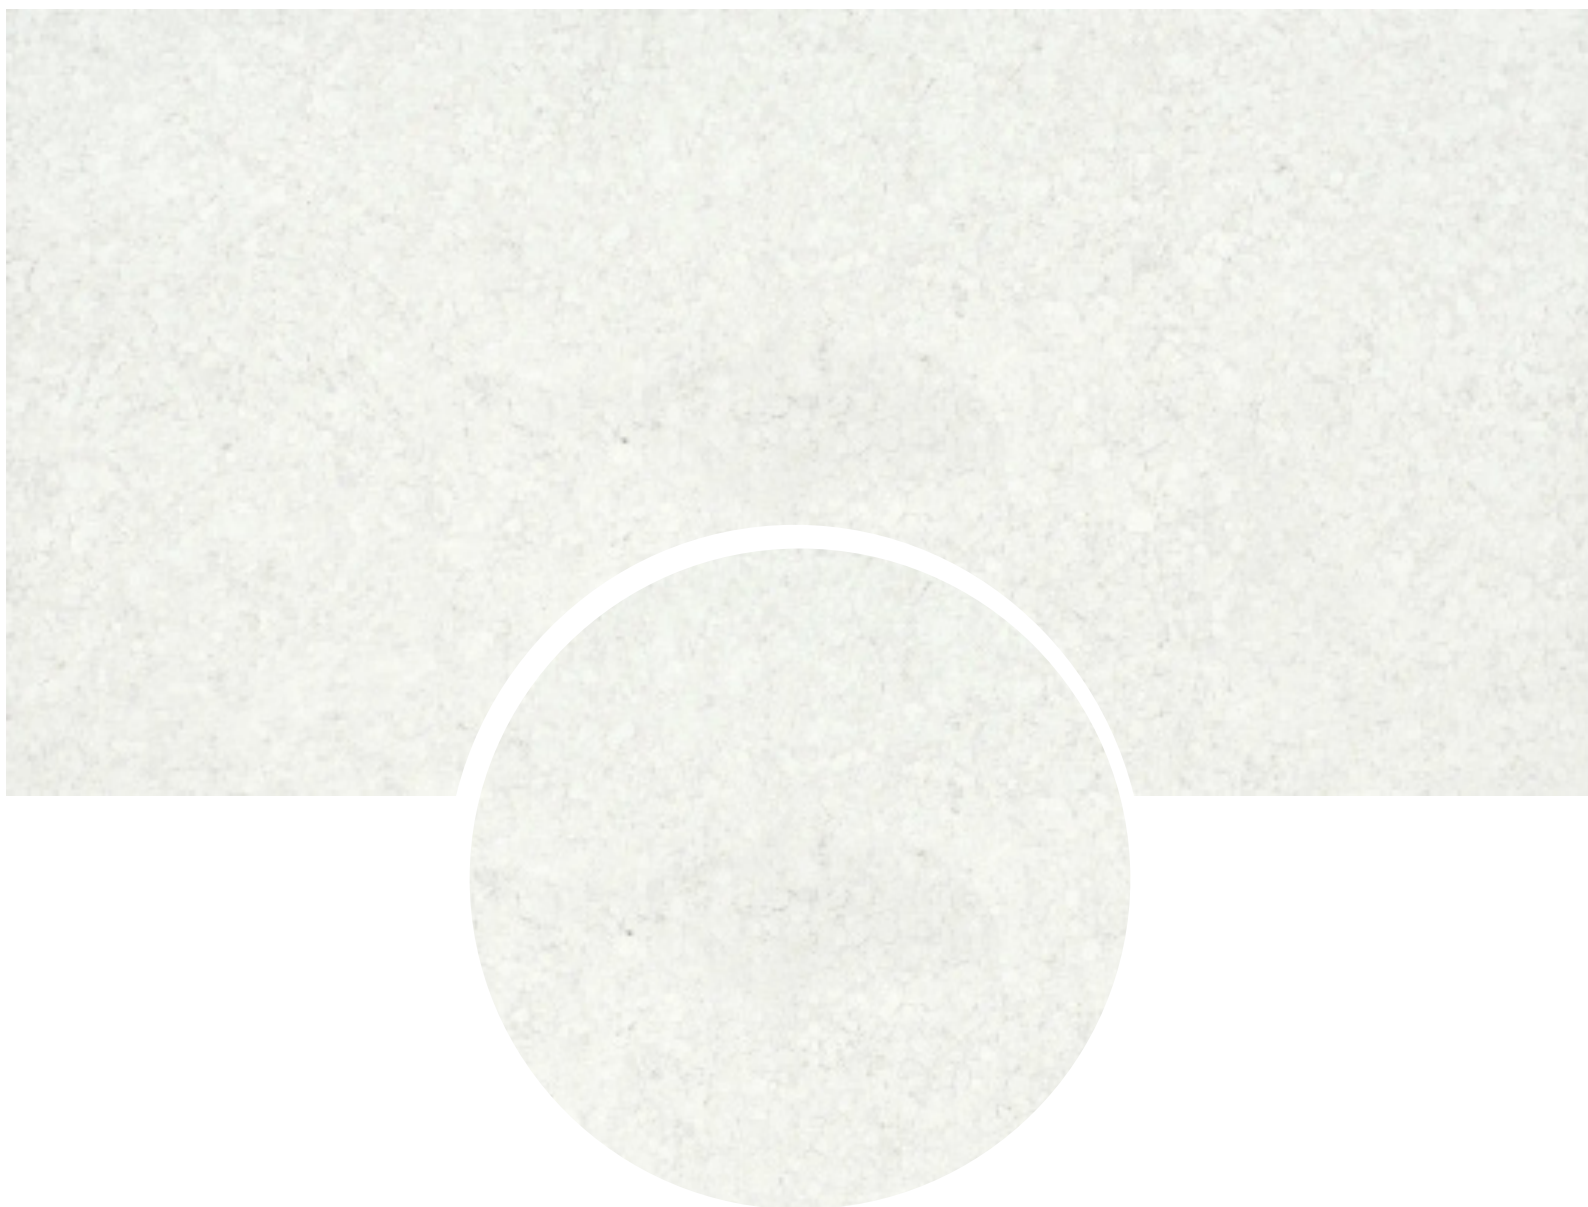

Icon Series

Volcanic

Volcanic presents an off-white and white multicolored base enriched with scattered grey Carrara-style movement across the surface. The subtle interplay of light tones and soft veining creates a balanced, natural stone-inspired look with gentle depth. Ideal for kitchen countertops, islands, bathrooms, and contemporary interiors, Volcanic offers a clean and versatile aesthetic that blends effortlessly with a wide range of design styles.

Icon Series

Meraki

Meraki blends soft shades of white, beige, and grey across a gently multicolored base, creating a surface with natural depth and subtle movement. The harmonious mix of warm and cool tones gives the slab a balanced, stone-inspired character that feels both calm and sophisticated. Suitable for kitchen countertops, islands, bathrooms, and modern living spaces, Meraki offers a versatile design that complements a wide range of interior palettes.

Prism Series

PS-694

PS-694 features a gentle sage-green surface enriched with soft flowing patterns and delicate natural textures. Subtle tones of pale green, warm beige, and creamy hues blend seamlessly, creating an elegant quartzite-inspired aesthetic. Ideal for countertops, feature walls, bathrooms, and interior spaces, PS-694 brings a refreshing natural tone and timeless sophistication to modern interiors.

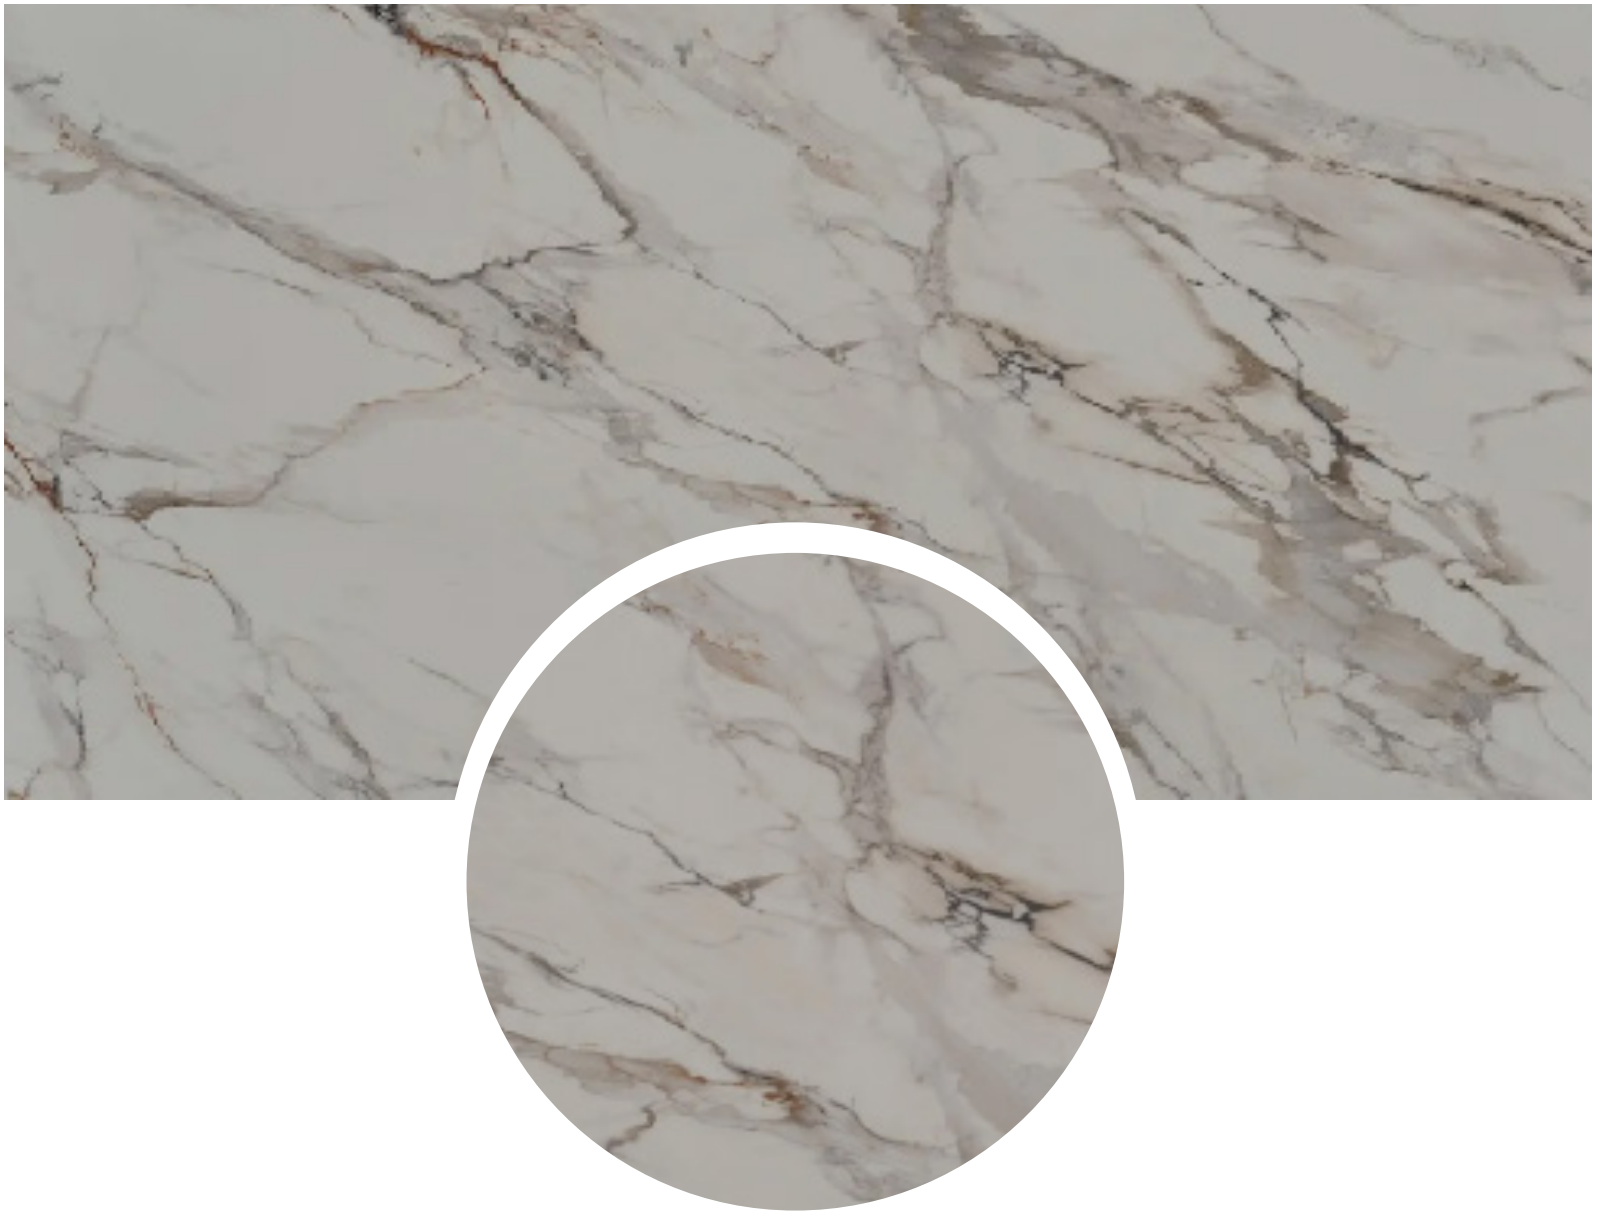

Prism Series

PS-749

PS-749 features a soft white surface enriched with gentle grey movements inspired by the quiet beauty of natural quartzite. The delicate flowing patterns create depth and organic texture while maintaining a calm, elegant aesthetic. Ideal for modern kitchens, islands, bathrooms, and interior spaces, PS-749 brings a refined and timeless sophistication to contemporary designs.

Prism Series

PS-687

PS-687 features a luminous white surface defined by bold, flowing grey veins that move gracefully across the slab, capturing the timeless elegance of classic Italian marble. The striking contrast and subtle variations within the veining create depth and natural character. Ideal for kitchen countertops, islands, bathrooms, and feature walls, PS-687 brings a refined yet dramatic presence to contemporary interiors.

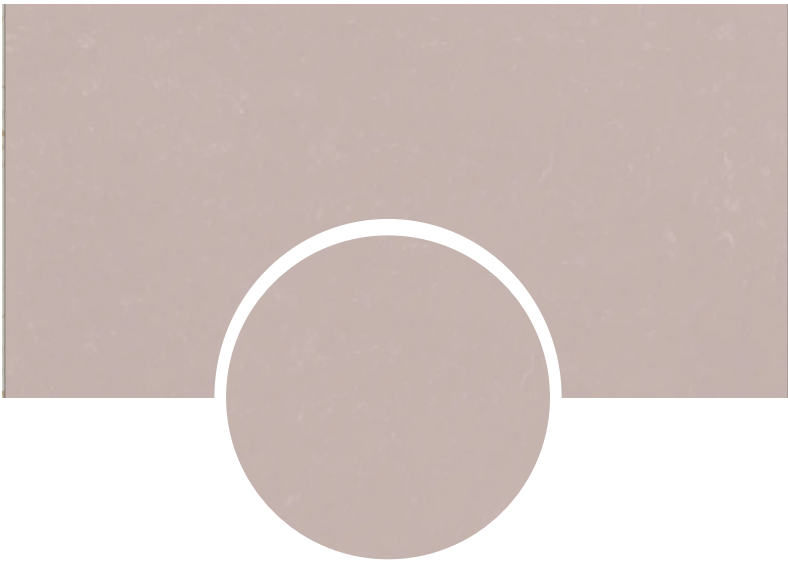

Prism Series

PS-707

PS-707 features a soft pearl-beige surface inspired by the elegant character of natural quartzite. Gentle layers of warm sand and creamy tones flow across the slab, creating a calm and refined aesthetic. Ideal for kitchen countertops, islands, bathrooms, and contemporary interiors, PS-707 offers a timeless neutral palette with understated elegance.

Pastel Series

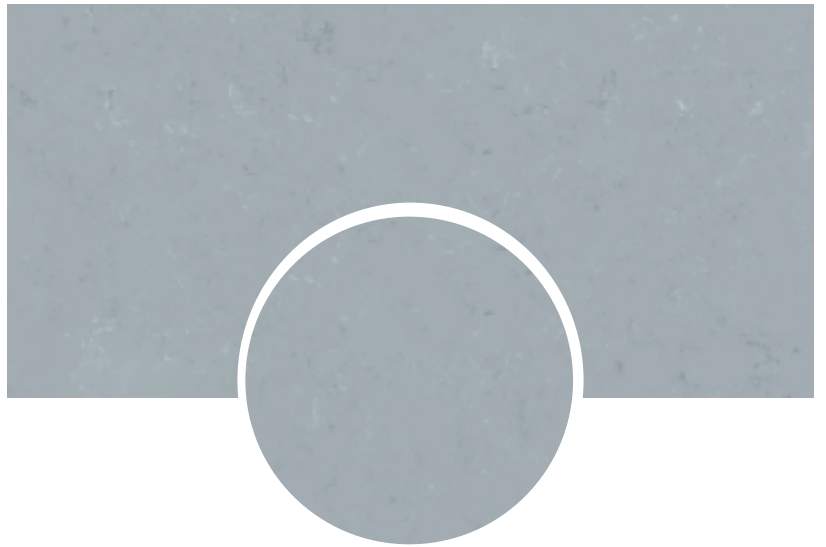

S-577

S-577 presents a soft pastel pink base accented with delicate white Carrara-style movement across the surface. The gentle contrast between the blush background and light veining creates a graceful and airy aesthetic. Perfect for bathroom vanities, accent countertops, feature walls, and contemporary interiors, S-577 introduces a subtle touch of color while maintaining an elegant and refined appearance.

Pastel Series

S-579

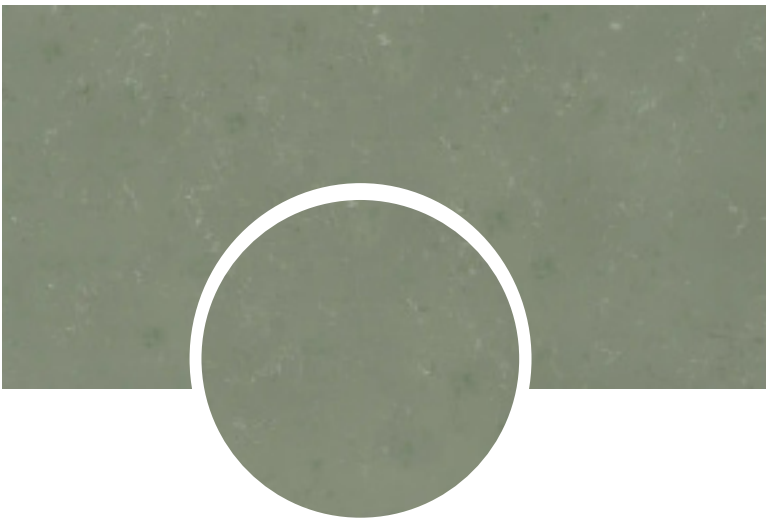

S-579 displays a soft pastel blue surface enriched with white and light blue Carrara-style movement flowing gently across the slab. The delicate interplay of cool tones creates a calm, airy aesthetic reminiscent of tranquil coastal landscapes. Ideal for bathroom vanities, accent countertops, feature walls, and contemporary interiors, S-579 introduces a refreshing and serene design element.

Pastel Series

S-576

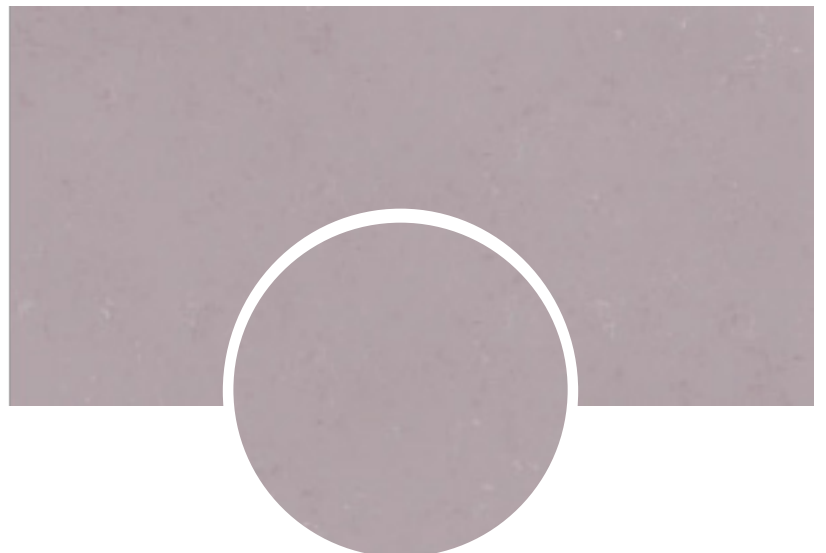

S-576 presents a soft pastel green base accented with gentle white and green Carrara-style movement flowing across the surface. The subtle layering of tones creates a calm and refreshing aesthetic with a natural stone-inspired character. Ideal for bathroom vanities, accent countertops, feature walls, and contemporary interiors, S-576 introduces a soothing touch of color with understated elegance.

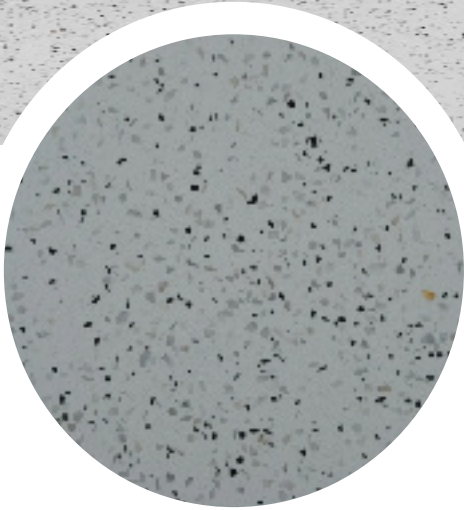

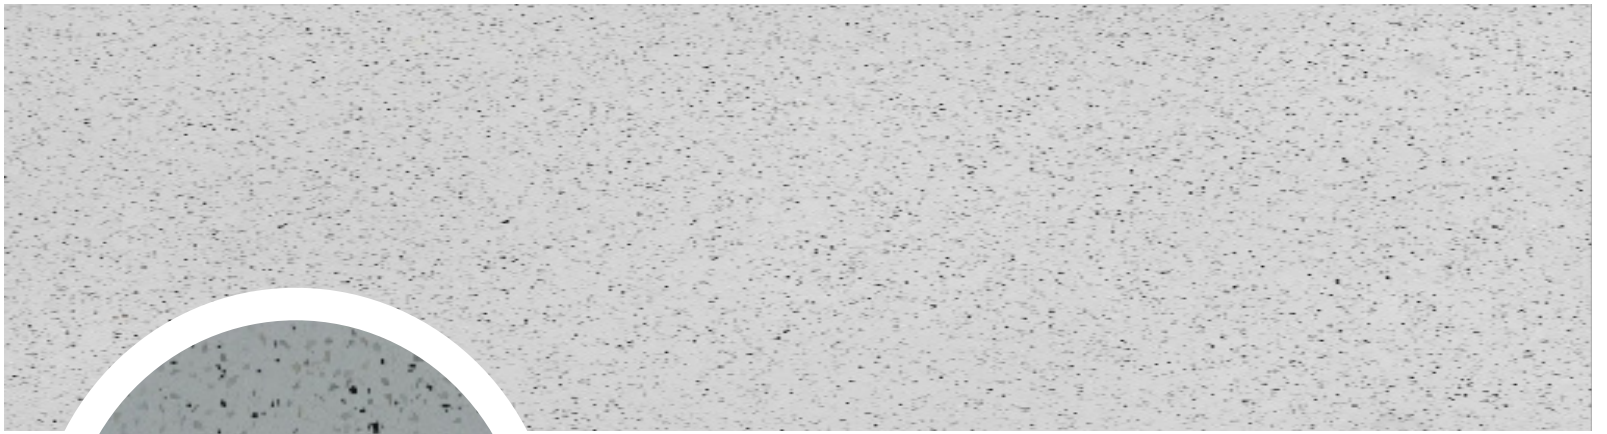

Pastel Series

S-579

S-579 reveals a soft pastel purple base enriched with flowing white and purple Carrara-style movement across the surface. The delicate tonal variation creates a smooth, elegant look with gentle visual depth. Well suited for bathroom vanities, accent countertops, feature walls, and contemporary interiors, S-579 adds a refined hint of color while maintaining a graceful, modern aesthetic.

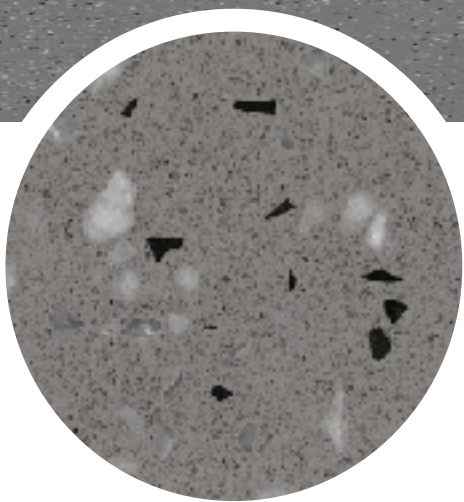

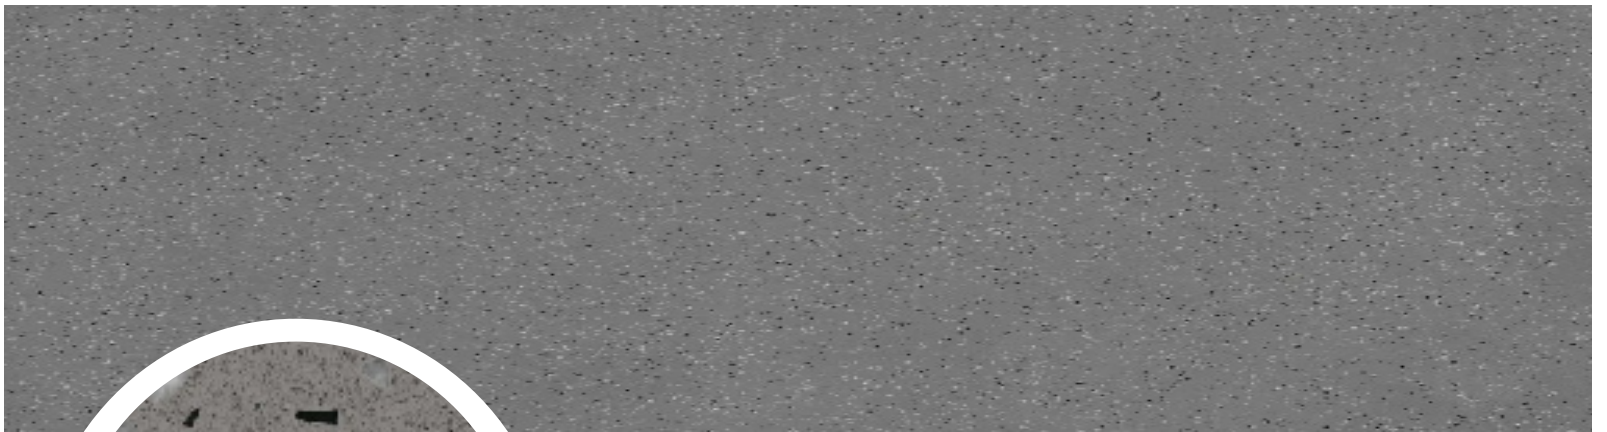

Terrazzo Series

White Terrazzo

White Terrazzo combines a bright white base with scattered off-white and black terrazzo chips distributed across the surface. The contrasting fragments create a lively yet balanced pattern inspired by classic terrazzo flooring. Ideal for residential and commercial flooring applications, White Terrazzo delivers a timeless terrazzo aesthetic with a clean, contemporary character.

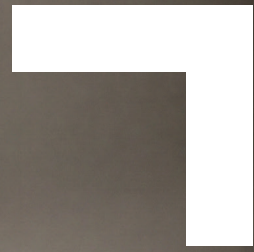

Terrazzo Series

Grey Terrazzo

Grey Terrazzo features a smooth grey base scattered with off-white and black terrazzo chips across the surface. The contrasting fragments create a balanced, textured pattern that reflects the timeless appeal of classic terrazzo. Ideal for residential and commercial flooring applications, Grey Terrazzo delivers a modern yet enduring design suited for contemporary spaces.

EDGE PROFILES

NOTE:

Edge fabrication is not offered by Glowstone. It needs to be performed by your local fabricator.

01

Half-Bullnose.

An edge that is rounded along the top and flattens at the bottom for a straight edge while maintaining a consistent thickness. Also known as half-bullnose.

Calacatta Series
S-708

NOTE: Edge fabrication is not offered by Glowstone Quartz. It needs to be performed by your local fabricator.

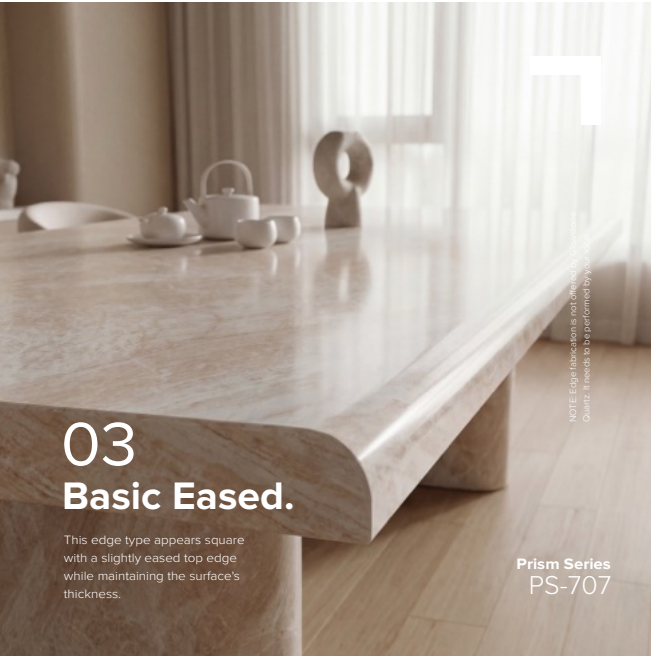

02

Ogee.

This traditional style edge features a concave arch that transitions into a convex arch.

Icon Series
Meraki

NOTE: Edge fabrication is not offered by Glowstone Quartz. It needs to be performed by your local fabricator.

03

Basic Eased.

This edge type appears square with a slightly eased top edge while maintaining the surface's thickness.

Prism Series
PS-707

NOTE: Edge fabrication is not offered by Glowstone Quartz. It needs to be performed by your local fabricator.

04

Mitred.

This edge joins two angled pieces to give the visual effect of a thicker surface.

Icon Series
S-662

NOTE: Edge fabrication is not offered by Glowstone Quartz. It needs to be performed by your local fabricator.

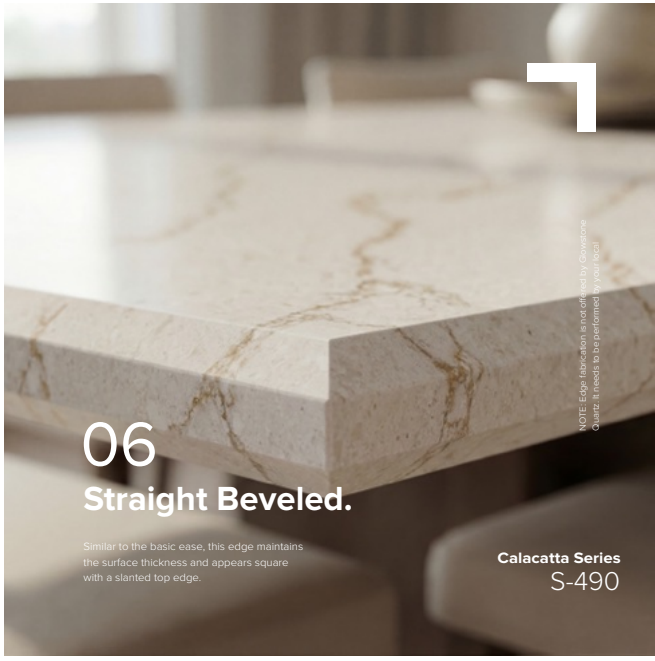

05

Bullnose.

A completely rounded finish that maintains the surface's thickness.

Prism Series
PS-694

NOTE: Edge fabrication is not offered by Glowstone Quartz. It needs to be performed by your local fabricator.

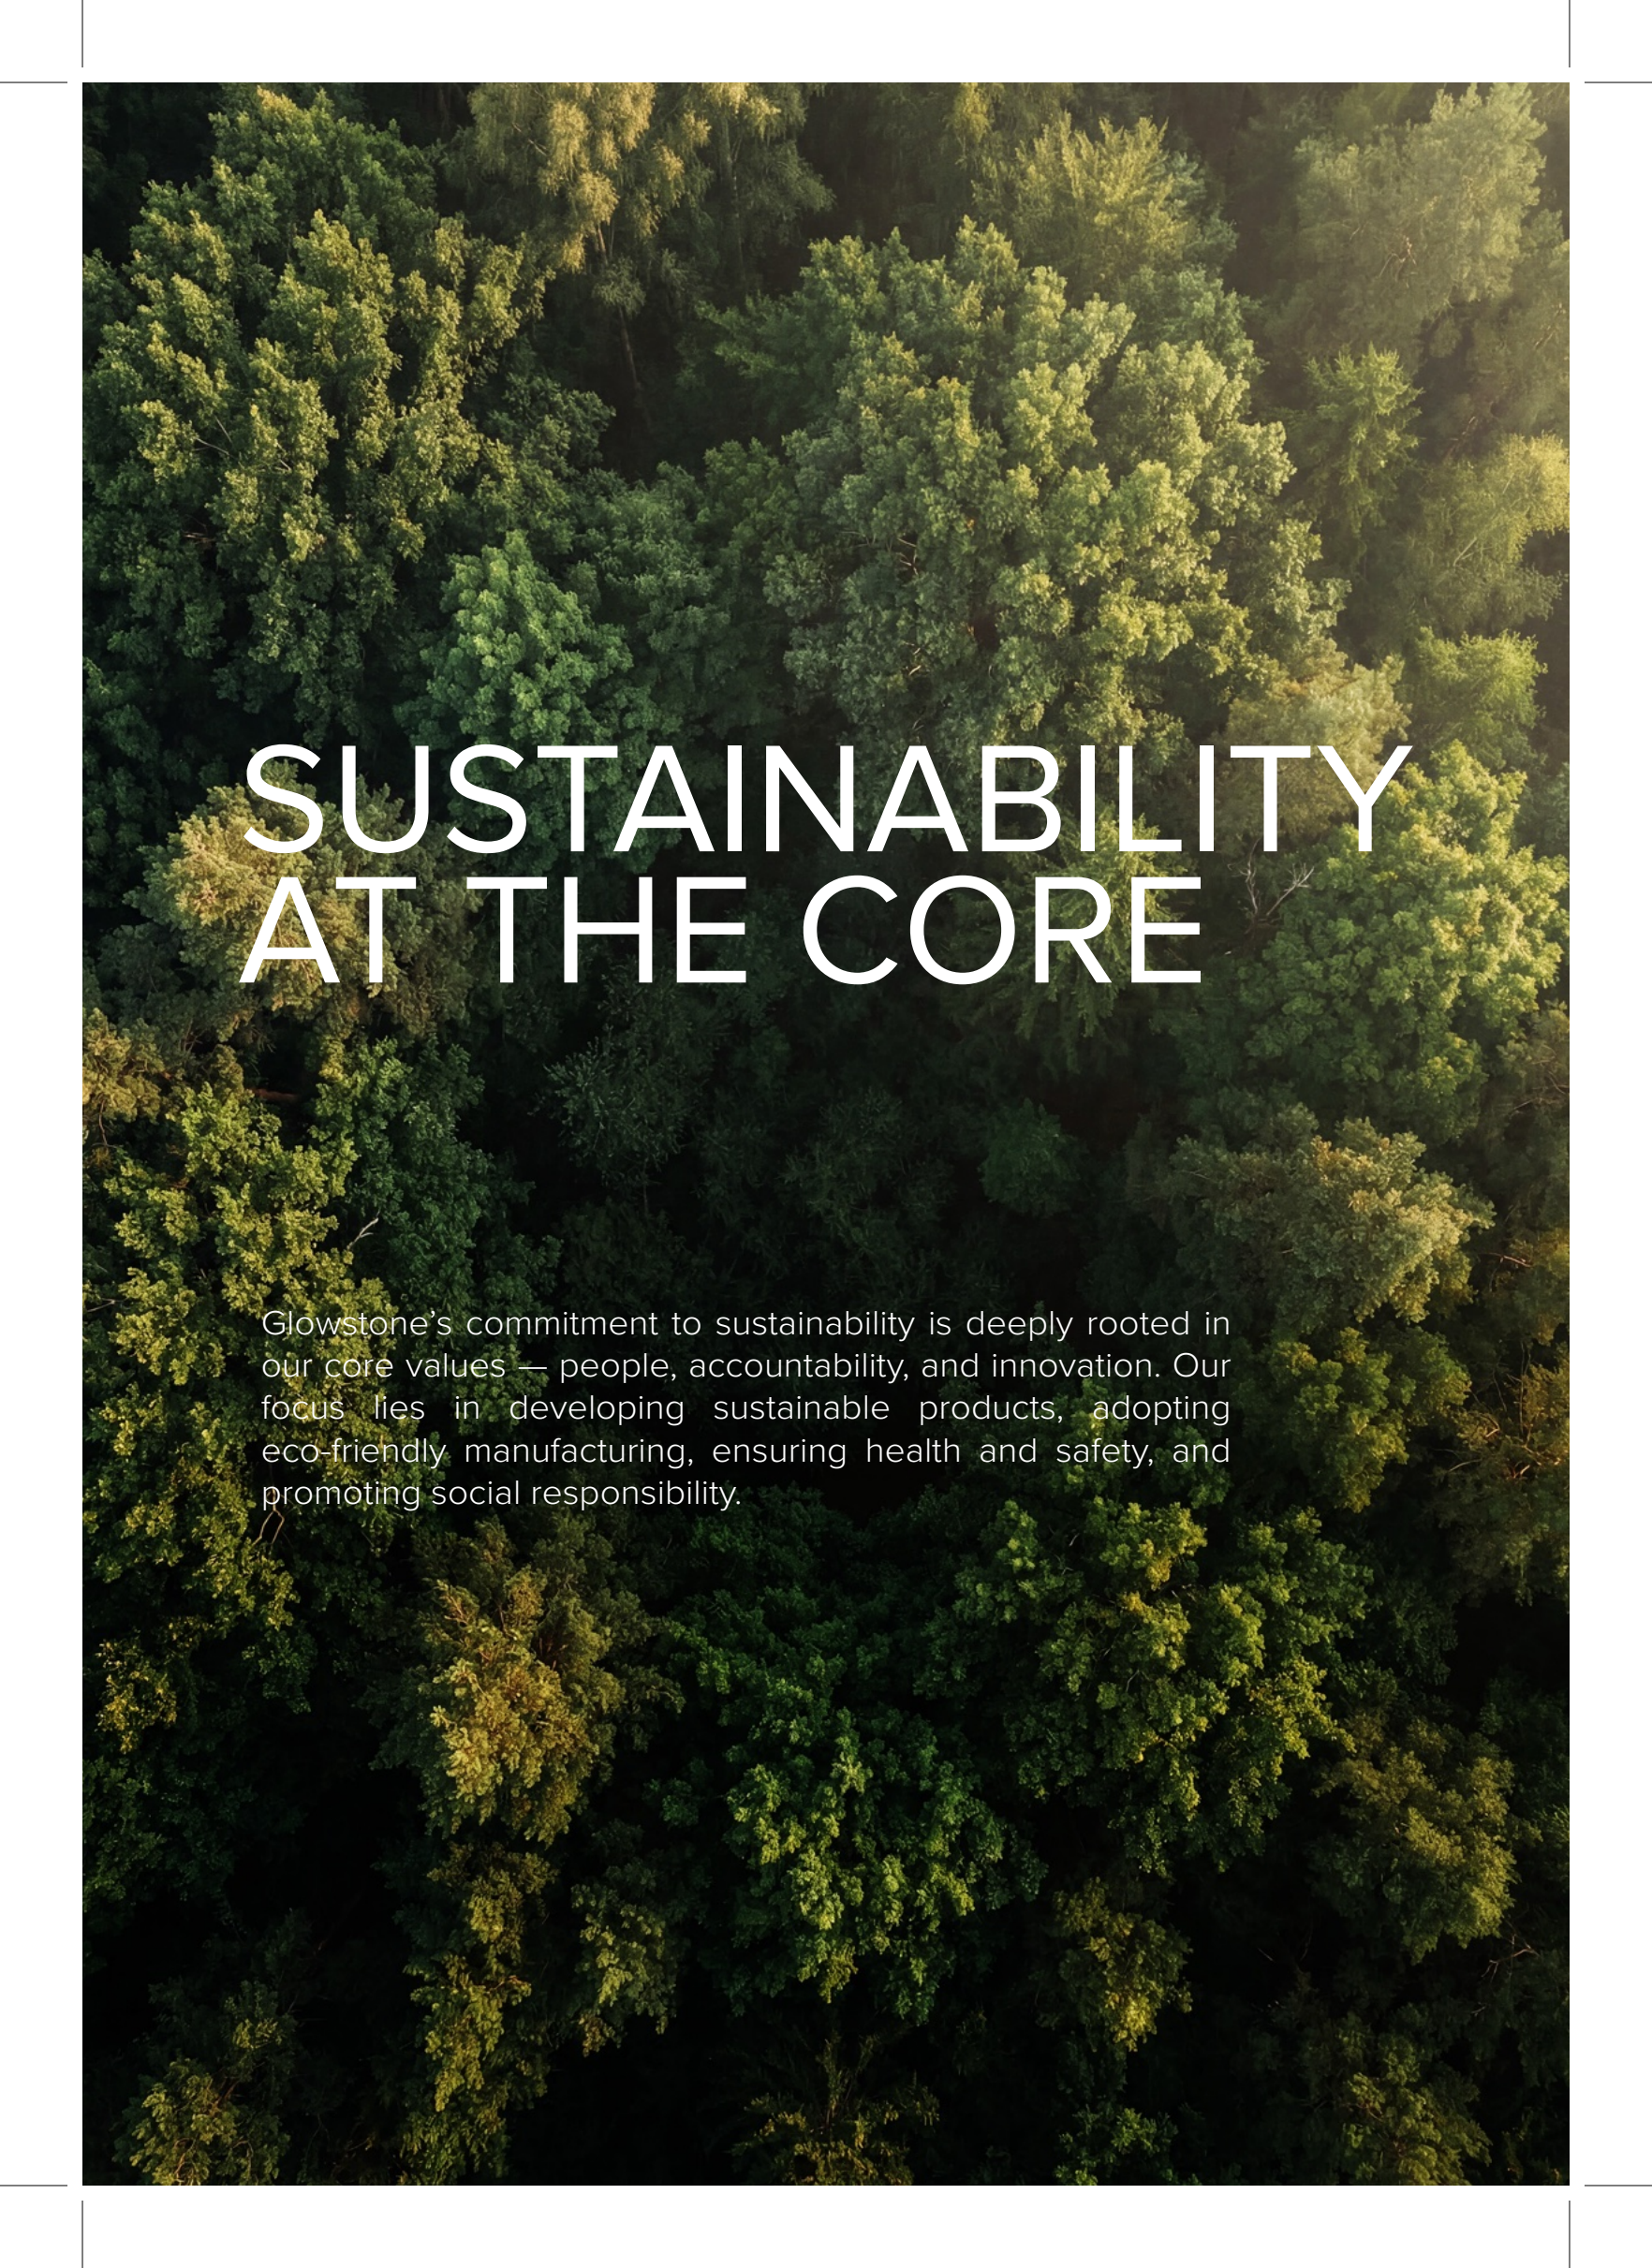

06

Straight Beveled.

Similar to the basic ease, this edge maintains the surface thickness and appears square with a slanted top edge.

Calacatta Series
S-490

NOTE: Edge fabrication is not offered by Glowstone Quartz. It needs to be performed by your local fabricator.

An aerial photograph of a dense forest. The trees are lush green, and sunlight filters through the canopy, creating a dappled light effect. The overall tone is natural and serene.

SUSTAINABILITY AT THE CORE

Glowstone's commitment to sustainability is deeply rooted in our core values — people, accountability, and innovation. Our focus lies in developing sustainable products, adopting eco-friendly manufacturing, ensuring health and safety, and promoting social responsibility.

Water Recycling

01 Despite maintaining a reservoir of 11.5 lakh litres of flowing water, our factory achieves a 0% water discharge, contributing to cleaner rivers and seas.

02 The slurry produced during water recycling is repurposed in brickmaking and other construction activities, promoting circular resource utilization.

03 Our wastewater treatment facility ensures that sewage water is purified and utilized for plantation purposes throughout the factory premises.

Carbon Footprint

01 Glowstone benefits from its strategic location near quartz-rich regions in Rajasthan, providing a natural advantage over competitors.

02 Unlike European and Chinese firms that import from distant locations, we source materials from quarries just 2 hours away — cutting transport and reducing our carbon footprint

Our Saplings

Our factory currently relies on solar power for approximately 20% of its total electricity consumption, fluctuating between 19% to 21%. With the onset of summer, we anticipate this figure to rise to 22%.

In 2024, we expanded our solar infrastructure, increasing generation capacity from 800 kW to 1200 kW. As part of our continued commitment to sustainability, we're now set to add an additional 800 kW—bringing our total solar power capacity to 2000 kW, marking a remarkable 150% increase since 2023.

As part of our commitment to social impact, we donate between 1500 to 2000 kilowatt-hours of electricity monthly to the government, benefiting households in neighboring villages.

Embracing energy-efficient technologies, we've replaced conventional bulbs and tubelights with LEDs, resulting in an 80% reduction in electricity consumption.

In line with our sustainability goals, we operate electric forklifts in the factory, prioritizing electric vehicles over gas-powered alternatives.
